Perry line; running thence a southwest course along Joseph L. Lassiter's line to a post, a corner in the Bailey land, running thence southeast course along the Bailey land to a post, a corner of lot No. 1 of the W. J. Lassiter land, running thence a northeast course along the line of lot No. 1 to the beginning, containing 16 1-2 acres, more or less, and being lot No. 2 in the division of the

### PAINS ALL OVER

Lady Says She Took Cardui and Never Saw Such Improvement—Was So Weak Couldn't Stand.

Weatherby, Miss.—Mrs. James M. Hall, of this place, writes that she was "getting weaker all the time" when Cardui, the woman's tonic, was first brought to her attention. After she had taken Cardui a while, she writes that she "never did see such an improvement."  
"I suffered all the time and had pains all over," says Mrs. Hall. "I was so weak I could not stand. My skin was cold and flabby. I did not have any color. I had always been a very active woman—used to outdoor exercise, walking and going where I pleased, and to get down, not able to get myself a drink, was indeed a hardship."  
"Nothing seemed to help me, till I began on Cardui. The first bottle seemed to strengthen me, and I sent for five more. By the time I had taken these, I was on my feet, going around, doing my work, gained in health and strength."  
"I took two more bottles, and I am well and strong. Can work my garden. I haven't had any more sickness."

### NOTICE OF SALE OF REAL ESTATE

Under and by virtue of the power of sale contained in a certain deed of trust executed to the undersigned trustee by Jos. L. Lassiter and wife,

**Quick Acting Nitrogen Gives Best Results**

Some very interesting results were secured in a County "4-Acre Cotton Contest" last year. Eighteen men from all sections of the County competed, and their composite results are of general interest because of the variety of conditions under which they were obtained.

It was found, according to the County Agent, that it paid to use at least 400 to 600 pounds of a high-grade fertilizer and that such a fertilizer with at least two per cent of the Nitrogen "from a quick acting source like Nitrate of Soda, gave the best results."

Where 200 pounds of Soda together with 400 pounds of fertilizer were put under the cotton, "we got an increase of 163 pounds of lint per acre."  
"In one case," says the County Agent, "where we used 60 pounds of Nitrate of Soda around cotton after it was chopped, we got an increase of 68 pounds of lint cotton per acre at a net earning of \$12.75 per acre. These tests proved that we need to get more of our nitrogen from a quick acting source."  
These results showed that quick acting Nitrogen set squares earlier and faster and "had a crop set before the dry weather hurt it very much. This is true under dry weather conditions and also under boll weevil conditions. The weevil question should receive special attention this year, in view of the fact that infestation is expected to be unusually severe. Successful planters in all parts of the South meet this difficulty each year by putting 100 to 200 pounds of Soda and 200 to 300 pounds of Acid under their cotton, and then by applying at first chopping a side dressing of 100 pounds of Soda."

### Danger In Coughs That Hang-On

Neglected coughs often lead to worse trouble. Yet there is a simple method based on the famous Dr. King's New Discovery, which usually breaks the worst cough entirely in 24 hours.  
Here is the method: You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the real cause of the coughing. So the most stubborn cough soon disappears completely.  
Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

**It Fools Them**

Everyone I met today said they liked my new suit. That's a joke on them because it's an old one I had cleaned and pressed.
