Save the Surface and You Save All

Paint and varnish increase the value of your property-many

If done in time, painting keeps down the annual maintenance expense by saving money that otherwise would be spent for repairs or lost through depreciation.

The paint dollars adds more value than any other dollar spent on your property.

Then, too, think of the beauty in a can of paint. Think of the change it will bring in the appearance of your home, and to everything your brush touches.
