

NOTICE OF CANDIDACY

I hereby announce my candidacy for the office of county commissioner from Griffin and Bear Grass Townships.

Respectfully,
T. S. GRIFFIN.

STRONG HEARTS

Syphilis in early life may attack the heart, causing weakness or death in later years, even after the disease itself is no longer apparent. After the heart muscle has been destroyed or the valves all scarred up they can never again be brought back to their normal shape and function. If this condition has been caused by syphilis, treatment will cure the disease and stop further damage but treatment for syphilis will not restore again the heart to its normal condition any more than it would restore skin to its normal shape and smoothness that has been drawn and scarred by a severe burn. A scarred heart like scarred skin will remain always. The only time that kind of heart disease can be cured is to cure the disease before the damage to the heart has been done. Improper habits of living leaves their mark on the heart. Many people owe their ill health to ignorance or indifference. Eating too much, exercising too little, living too closely in doors, too little and irregular sleep, the overuse of alcohol, coffee, tea and tobacco are very common faults which may and often do serious damage to the heart.

When we are asleep the heart beats on an average of ten beats less per minute than when we are awake. That is one reason why plenty of sleep keeps us in good condition. The heart must have some rest and the only rest it can get is that brief interval between beats. The person that brags about how little sleep he can get along with is only exposing his ignorance and admitting that he is slowly and insidiously committing suicide. All adults need at least eight hours quiet sleep and children much more.

It is often said that "it is worry, not work, that kills." This is because worry puts a maximum strain upon the heart. If you have heart trouble learn to develop a calm, even attitude toward life. Avoid excitement or situations where you become angry or aroused. Develop a fixed schedule for the day and do not deviate from it. Sleep at least ten hours out of the twenty-four and as much more as your individual case demands. Stay out-of-doors as much as possible, watch your weight, avoid all stimulants and drugs except those specifically prescribed by your doctor.

WHOOPIING COUGH

In the spring is when whooping cough does its worst. There are each year in North Carolina about five hundred lives lost as a direct result of whooping cough and about 15,000

SALE OF LAND FOR TAXES

I, H. T. Roberson, sheriff of Martin County, have this day levied on the following tracts or parcels of land, and will sell the same at public auction for cash, before the courthouse door of Martin County on June 7th, 1926, for taxes due and unpaid for the year 1925, unless the taxes and cost are paid on or before that date.

This the 3rd day of May, 1926.
H. T. ROBERSON, Sheriff.

Jamesville Township—White
