Farmer Gives Experience In Raising and Curing Tobacco

Mr. W. H. Davis, of Mocksville, offers such information that might be of value to the farmers of this section in regards to the raising and curing of tobacco. It will be remembered by some of our readers that Mr. Davis has written before on the handling of tobacco, but thinking his letter to be of value to those who failed to see his first statement, we gladly print the following:

Dear Mr. Editor:
Doubtless many of the readers of your paper are tobacco growers and will be interested in a letter on tobacco culture. The information that I shall offer here came from my father who was quite a tobaccoist. He began growing tobacco more than 70 years ago and he early found that there are better times than others for harvesting tobacco in order for it to cure nicely and rich. To tell in advance when these better dates come in a season was a puzzle, but by reason of several years' study on this point, father was finally successful in determining the right time.

For some reason, however, he kept

this information a secret from every body, even from his own family until a short time before his death when he called a sister and myself to him and explained it full to us.

I desire to pass this information to the tobacco growers. In explanation, let me say that tobacco as an oily substance which is its natural possession. It also has a sap (water) which comes and goes at intervals during the life of the plant. When the saps rises it runs the oil out through the pores of the leaf to the surface where it forms a "gum", well known to all tobacco growers. Oil and water do not mix and oil being the lighter, is pushed out as explained and tobacco harvested in this condition will cure badly and be

light and "chaffy" when cured. But it is best to harvest when fullest of oil and when the sap is down. At this time it will cure easily and will be rich and heavy. The oil cannot evaporate in the process of curing like the sap does, and remains to give wealth to the tobacco.

I shall be pleased to answer any correspondence from tobacco growers, provided postage is sent for reply.

W. H. DAVIS.

Misses Polly Campbell and Hildreth Dunston, of Washington, attended the Smith-Whitley wedding which took place here on Wednesday.

A TRIBUTE OF LOVE

On Tuesday morning, June 15, 1926, at the home of her daughter, Mrs. J. H. Wilkins, of Roxobel, N. C., in her eighty-third year, the soul of Mrs. Sarah Hays Garrett "winged its flight" to be with her God and loved ones gone before. Forty-three years ago her husband, the late Rev. Joshua Leigh Garrett, of the Virginia Conference, M. E. Church, South, preceded her to the glory land, leaving her with seven children, the youngest (the writer) six months old. Through the years of trial and hardship in raising her children she ever remained true to her God, her church, and its every organization, always expecting the same of her children. I am sure that when we shall see her again those seven stars in her crown will shine just a little brighter than the rest. She did so much for her children. I can hear her now as she sang in my childhood, with voice grown mellow, the old hymns, "Nearer, My God, to Thee," "There Were Ninety and Nine," and "When the Way Seemed a Little Darker." "It may not be my way; it may not be thy way; but still in His own way the Lord will provide."

She leaves one son, John H. Garrett, of Portsmouth, Va., and five daughters, Mrs. J. H. Wilkins, of Roxobel, N. C.; Mrs. J. J. Garrett, of Southport, N. C.; Mrs. W. E. Daniel, of Arcadia, Fla.; Mrs. R. L. Hayes, of Raleigh; Mrs. W. C. Liverman, Williamston; not to mourn her loss, but rather to rejoice in spirit with her, that she has gone to claim one of those mansions Jesus went to prepare, a house not made with hands, eternal in the heavens; and to rejoice with each other that she has left us such a heritage.

We laid her body away, amid many floral tributes, by the side of our father, at the old home place in Hertford County.

Her daughter,

KATE G. LIVERMAN.

Mesdames A. R. Dunning and G. A. Harrison attended the Sunday school convention in Robersonville yesterday.

SICK HEADACHE

No Pleasure, Says Ohio Lady, to Go Places, Till She Took Black-Draught Which Brought Relief.

Langsville, Ohio.—"For years and years I suffered with severe headaches," says Mrs. Jane Campbell, of this place. "It wasn't any pleasure for me to go places, for I came home with sick headache. If I went to church or to any social gathering or to town to shop, when I got back I would have these headaches and have to go to bed for a day or more, till I would just get out of heart and would not try to go. "About 15 years ago I discovered that Black-Draught was good for these headaches. I began using it. I would take it two or three nights in succession if I felt the least bad, and it sure did wonders for me. It is about 14 years since I had sick headaches, and I can go places and really enjoy life. It surely is splendid."

Headache often is a symptom of constipation. The best relief is secured by treating the cause of the trouble and in such a case many people have been greatly helped by the use of Theodor's Black-Draught.

Purely vegetable. Recommended for young and old. No harmful after-effects. Bold everywhere. NC-169

Mr. J. N. Hopkins, Mrs. T. A. Peed and Miss Coralie Peed attended the party at Jamesville Friday.

Miss Ruby Askew, of Plymouth, re-

Are you driving a second choice CAR?

Leadership today belongs to Buick because so many people make it their first choice among all motor cars.

They have discovered that other cars, priced the same as Buick, are not even close to Buick in value.

Volume production enables Buick to give you a lot better car for a very moderate price.

Do not be misled into driving a second-choice car. Compare the new car offered you to Buick, before you let go of your money!
