### Glen-James

The announcement below has just been received by friends of the bride in this county. The wedding must have been rather unexpected and a surprise to their friends. Mrs. Glen, who formerly lived in Williamston and Everett, is an exceptionally fine young woman, and her friends in this section wish her every success in life.

The announcement follows: "Mr. Meluel C. James announces the marriage of his daughter, Myrtle Malone, to Mr. Frank W. Glen, Jr., on Saturday, the 26th of June, 1926, Marion, North Carolina."

### Many Farmers Borrow From Joint Stock Bank

Durham, July 22.—Seventy-five North Carolina counties are represented by the 3,126 farmers who have borrowed a total of \$11,497,700 for agricultural purposes, from the North Carolina Joint Stock Land Bank of Durham, President Southgate Jones reported to the board of directors at the meeting held in Durham last week. In Virginia 128 farmers in 19 counties have borrowed from the bank a total of \$440,900, the report showed.

The North Carolina Joint Stock Land Bank, operated in the two states under supervision of the Federal Farm Loan Board, a bureau of the Treasury Department of the United States, is capitalized at \$600,000, with

earned surplus of \$100,000, paid in surplus of \$80,615 and undivided profits and reserves of \$80,812.24. It has been in operation for three and a half years and the growth has been very pleasing to the officials and directors. The loans run, for 33 years, with semi-annual payments.

In Martin county, President Jones reported that there are 171 farmers who have borrowed from the bank, the total amount being \$585,500. The

directors expressed their satisfaction with the loans made and with the splendid manner in which the farmers are meeting their payments, which, they said, indicates a healthy and stable condition among the farmers of Martin county.

The Kohler Automatic Electric Plant is a hard worker. It will pump the water, milk the cows, separate the cream, chop the feed, do the washing and ironing, and a dozen other jobs.

It's a hard worker because it is built to be a power plant as well as a lighting plant. It is not handicapped by storage batteries—full rated capacity is always on tap. A small starting battery provides for fully automatic operation.

Its 110-volt current carries long distances, saves wiring expense, operates standard appliances, and gives brilliant light.

If you want a real helper, you owe it to yourself to investigate this proved successful machine. Why buy an ordinary light plant when you can get a Kohler on easy payments? Let us give you the facts.

THE BEST ADVERTISEMENT ADVERTO THE FARMER WHO WILL WRITE TISING THE

**WILLIAMSTON TOBACCO MARKET**

**\$15 in Gold Will be Given Away by the**  
**Williamston Chamber of Commerce**

For the past years, advertisements have been offered the public by some individual not connected directly with the tobacco business; and this year we want to get first-hand information, so we are calling on the one best fitted—the farmer. You may not know all the facts regarding the Williamston market, but that's all right. We are most desirous of learning just what features you like about the Williamston market and why you sell your tobacco here. It is as easy as falling off a log, and we want every farmer to try for the \$15. While sitting watching your barn, you could note the things as they come to you, and then take a few minutes and put them together.

**EVEN IF YOU DON'T SELL YOUR TOBACCO HERE, YOU CAN WIN THE PRIZE**

Now, it may be that you do not sell your tobacco in Williamston. If that should be the case, you have a chance to win the \$15 in gold. All you have to do is to write an advertisement giving your views on the Williamston tobacco market and why you do not sell here. We are especially intersted in this because we want to know the faults of our market, so they may be corrected.

This Offer Closes Tuesday, August 10, and the Right is Reserved to Run Any Advertisement in Various Newspapers, With the Signature of the Writer If Desired

**Only These Few Rules and Regulations**

1. All copy for advertisements must be in the hands of the advertising manager of the chamber of commerce by August 10.

2. The completed advertisement, should be 10 inches long by 6 1-2 inches wide; that is, when it is printed it will be that size; and

matter to be put in it should not be crowded too much, nor should there be too little to fill the space and make an attractive ad.

3. Write on one side of paper only. If possible, get a piece of paper a little larger than the size of the ad and write it just as

you think it should be printed; marking your lines for display (or larger type) and arranging your reading matter the best way you see fit.

4. Put your name and address at top of page or pages and mail to
