**The GREAT MAJESTIC RANGE**

The Range With a Reputation

COME SURE! PLAN NOW!

IMPORTANT

SAVES MONEY — BEAUTIFUL BAKES BETTER

Mrs. Brown will be here. So will Mrs. Smith. In fact, you will probably meet most of your friends and neighbors at the Majestic demonstration next week. Everybody is welcome. We are trying to make this the biggest and most instructive demonstration ever held in this community. That's why we are arranging to have an expert from the Majestic factory here to answer all questions. He will explain in detail why the Majestic costs less per year than any other range in the world; how it saves fuel and repairs and assures better cooking.

This free offer is good on all models of the Majestic including the new model shown above. Experts have called this the finest range ever built. Uses less fuel yet bakes perfectly. All copper reservoir gives abundant hot water all the time without extra fuel. Burnished blue polished top requires little work. Beautiful throughout with heavy nickle-plated trimmings—doors and splasher pack paneled in white, grey, or blue enamel if desired. Has rustless floor rests; large warming closets; open end ash pan, and oven door that will support any weight placed on it. The Majestic is made of malleable (unbreakable) iron—rivet tight, heat tight, ash tight construction.

Any housewife ought to consider well the cooking and wearing qualities, the fuel economy, and the appearance of the range she buys.

Surely you know from experience with other things that it's false economy to buy a poor range that wears out quickly and often makes the best cook fail. The only true economy is economy in the long run. Therein lies the economy of the Majestic. It cuts down fuel and repair bills and its long life of never-failing efficiency makes it cost less per year of service than any other range in the world.
