Gentry Bros. Show to be Here Soon

The billboards and dead walls about town are announcing that the Gentry Bros. shows will be here on September 22.

Beginning as a small wagon show, each year has seen a steady growth, until today the mere announcement of the appearance of the Gentry Bros. shows is synonymous with the fact that the patrons will see a clean, high-class entertainment, free from objectionable features, embodying all that is great and entertaining in the realm of the "white tops".

A special train of double length railroad cars will bring the show here. The show represents an expenditure of more than \$750,000. There are upwards of 500 men, women and horses with the show; several acres of tents; a herd of elephants; a caravan of camels; one of the most interesting traveling menageries; five bands of music, score of curiosities and oddities from the four corners of the world.

There will be two performances at 2 and 8 p. m., the doors opening at 1 and 7 p. m. A concert of popular and operatic music will be given by Prof. John Griffin's military band an hour preceding each performance. An immense street parade will be seen on the downtown streets at noon on show day.

Robert Biggs motoroff to Wake Forest today with the boys who are entering college there.

Herbert M. Poe spent the week end in Rocky Mount with his family.

Smith, and the Williamston National Farm Loan Association, the Farmers & Merchants Bank, and Pamlico Chemical Co., defendants.

The defendants, Noah Bright, trading as Coast Oil Co., Nansemond Grocery Co., Seaboard National Bank, and the Victor Oil Co., will take notice that an action entitled as above has been commenced in the superior court of Martin County, North Carolina, to foreclose a certain deed of trust signed by L. A. Sykes and Joseph Ida Sykes, said land having been sold and mortgaged to various parties subsequent to the mortgage held by the Federal Land Bank of Columbia, and which this proceeding is to foreclose; the said defendants will further take notice that they are required to appear on or before the 30th day of September, 1926, or within the time require by law, at the office of the undersigned clerk of the superior court of Martin County, in William-

ston, Martin County, North Carolina, and answer or demur to the complaint in said action, or the plaintiff will apply to the court for the relief demanded in said complaint. This the 21st day of August, 1926.
R. J. PEEL,
Clerk Superior Court.

TEXACO

STOP for the new and better Texaco Gasoline at our pump. The new Texaco has all the good qualities of any gasoline or motor fuel, regardless of price. It contains no chemicals. It needs none. Notice the better results from the first tankful.

YOU'LL get better acceleration—to the maximum without flooding—an easier start, a quicker pick-up, increased mileage and smoothness, and an entirely new freedom from carbon troubles and fouled spark plugs with the new Texaco. Try it, Gasolines are different, and Texaco is far different.

A WET gas chokes power—and dilutes the oil in the crankcase. A dry gas gives full power in every cylinder, and minimizes crankcase dilution—hence the far better engine work and better lubrication. The new Texaco forms a dry gas—always uniform.

THERE is no poison in Texaco. Rub a few drops on your hand and see how quickly it evaporates. This is a test of its new volatility. Texaco evaporizes completely in the manifold—and burns completely in the engine.

HERE'S the greatest motor fuel development in recent years. The new Texaco with new volatility—and antiknock qualities achieved without the addition of poison or chemicals. Rub it on your hands. Try it in your engine. Our pump supplies it.

ONCE again The Texas Company comes forward with a better motor product—the new and better Texaco Gasoline. Let us show you what your engine can do. The improvement is unmistakable.

TEXACO is a pure gasoline—without chemicals and without poison. A gasoline with exceptional anti-knock qualities and new distillation characteristics that mean better engine work, less crankcase dilution—and no carbon.
