HERE'S YOUR OPPORTUNITY

For A Safe and Profitable Investment!

Commencing December 8, we are offering to our customers and employees \$1,500,000 of SIX PER CENT CUMULATIVE PREFERRED STOCK OF VIRGINIA ELECTRIC AND POWER COMPANY. THE PAR VALUE OF THIS STOCK IS \$100. THE SALE PRICE IS \$92.50. DIVIDENDS ARE PAYABLE QUARTERLY.

A limited amount of this issue has been reserved for sale in our North Carolina territory for payment and delivery about December 21, 1926.

This new capital is to be used in connection with the program of the Company for improving and expanding its service. At this time a large amount of construction work is being done in the erection of high-power transmission lines and substations throughout NORTHEASTERN NORTH CAROLINA, some of which have already been completed.

These transmission lines will bring into North Carolina ample electric power to permit of indefinite industrial expansion. To be convinced of the adequacy of supply and reliability of service one need only look at the extensive system of which Northeastern North Carolina is now a part. It links up the water power developments of the company on the Rappahannock River at Fredericksburg, the James River at Richmond, the Appomattox River at Petersburg and the Roanoke River at Roanoke Rapids, and the large steam generating plants at Richmond and Norfolk. The capacity of the latter is now being doubled at a cost of approximately five million dollars.

In offering this \$1,500,000 of Preferred Stock, the Virginia Electric and Power Company invites you to become partners with it in its development plans.

CONSULT YOUR BANKER. Careful investors usually consult their bankers before making investments. We shall be glad to have you consult yours before making this investment.

HOW TO BUY.—Orders may be placed with the Company or through any Bank and are subject to prior sale. The Company reserves the right to reject any order and to allot this stock.
