

# ROBERSONVILLE SCHOOL NOTES

## Possible Aims and Careers of Senior Class Members

The Robersonville senior class has considered with peculiar interest the different professions which its members might like to follow. As a result of this consideration only one of the members is unable to decide just what he desires to become. The following list and notation of choices is indicative of possible aims and careers of the individual members: Of the 21 enrolled, 6 prefer to be teachers; 5 lawyers; 3 bookkeepers; 2 dentists; 1 electrical engineer; 1 physician; 1 clerk; and 1 detective. While the various professions selected indicate a pleasing difference of mind of the senior class, it is of especial interest to note that most of the members are agreed that, whatever they select, due preparation will be needed to make them efficient workers. In accord with this, 13 are planning to go to college,

## Interest Running High in Chasing Dirt and Dust

Just now interest is running high in chasing dirt and dust from every nook, crevice, and corner of the school. While the schools always prides itself on neatness and order, the recent premium placed upon such has resulted in more enthusiastic efforts on the part of the students. This premium, a holiday to the grade in both the elementary and the high school which proves to have the best housekeepers, has created a pleasant rivalry between the grades of the school, as no one grade would object to either the honor of having the best-kept room or the pleasure of the half holiday. A scoring committee, composed of Mesdames

W. R. Jenkins, V. A. Ward, and G. H. Cox, visits the grades at any time, either during school hours or after school hours to inspect and score each room. Not only does this committee have the privilege of selecting times for inspection, but its members also may come either collectively or individually.

## Teachers to Meet in Williamston Saturday

The home economics girls of the tenth grade entertained the faculty and their classmates at a Valentine party this week. Appropriate decorations, games, and refreshments were used.

## Honor Roll for Fifth Month

Some of our students make the honor roll part of the time; some most

of the time; while some few make this high record all of the time. Among our high school students, the very least of them, Brownie Roberson, belongs in the latter class. Her record shows that she was on it every month while she was in both the sixth and seventh grades and has been on it every time this year with the exception of the first month. Then she failed to make the required average in only one subject. Hurrah for Brownie!
