

Whitakers to Buy Power and Light from V. E. P.

Whitakers voted on the proposal of the Virginia Electric and Power company this week and within the next ninety days it will buy its power and light from that company. A large vote was cast for so small a town in the election—128 voting for and only one against the power company's proposal.

This is the second town that has been added to the power company's list this week. Ahsokie, the other town, will turn its plant over to the Virginia company some time in the early fall.

AID MEETING

Don't forget May 15th the Ladies Aid will meet, or any other thing that you may know that will happen in town we want to come first in our aid. This will be different each week, you see.

Our wood is selling right along because it is cheap. Don't you be one of those who waits until it goes up to order your next winter's supply.

We also have at all times cheap lumber for hog pens, chicken coops, or sheathing. Call us.

CARD OF THANKS

To my many friends who so kindly accorded me such loyal support at the recent election, I want to extend my sincere thanks and appreciation. May the Lord bless you.

W. H. CRAWFORD.

NOTE OF THANKS

It is my sincere wish to thank the many friends who so ably supported me and made it possible for me to win in the town election here last Tuesday. I assure them, as well as those who saw fit to vote for my honorable opponent, to do so being their perfect right, that it will be my pleasure as well as my duty to handle the affairs of the town to the best of my ability and to the greatest benefit of all.

Decentralization of Industry

General Guy E. Tripp, Chairman of the Board of Directors of the Westinghouse Electric and Manufacturing Company, Says:

"Automobiles, good roads, and power from electric transmission lines are making possible the location and development of industry at any point. No longer is it necessary for industry to huddle together in the larger cities. Decentralization of industry has come and industries are now being located in the smaller towns and cities of the country."

THE FOREGOING VIEWS BY THIS GREAT CAPTAIN OF INDUSTRY ARE SIGNIFICANT OF THE TREND OF INDUSTRIAL THOUGHT

One hundred and five municipally owned or operated electric light and power plants in twenty-seven States were sold to larger power companies in 1926, making a total of over 1,200 municipal plants sold, abandoned, or shut down within recent years.
