## 'Lindbergh Did Not Wish'

Young men the world over have, with mingled feelings, read of the achievement of the youthful Charles Lindbergh. Admiration and pride in the glory of his feat has been most generously given by all—still what young man is there who has not "wished" that the opportunity had been his—and that he could have "zoomed" through to such everlasting glory?

The now "Colonel Lindbergh" MADE his opportunity. An unknown air-mail pilot, he SAVED part of his earnings. When the hour arrived he had \$2,000 saved to offer on the altar of sincerity—and obtain the support of young business men of St. Louis. He was the largest individual contributor to the fund which made the flight possible.

#### Urges Farm-Relief Advocates to Mobilize

Little Rock, Ark., June 26 .- Ex-Governor George W. Donaghey, of Little Rock, has written letters to leading and representative bankers, agriculturists, and business men in the cotton centers of the cotton-producing States in an effort to interest those who look with favor upon Federal Farm Aid, and bring together these forces before the extra session of Congress convenes the coming Oc-

It is claimed that the South, and particularly the cotton-producing States, took no part in the campaign that was waged by business men and farmers from other sections of the country, particularly in the West and Middle West, in behalf of the McNary Haugen bill, which was vetoed by the president, after being passed by the Congress at its last session.

Mr. Donaghey says he believes if the South had joined heartily with the West in support of the bill it would have passed and would now be a law because with the moral support of the South and West joined, the members of Congress who opposed the

Mr. Donaghey says he does not own any farm or cotton land, is not depending for support upon agricultural products, except in the sense that everybody else in the South is, and he is doing what he is on his own initiative in the hope of bringing about a change in the economic conditions of the South by stabilizing cot ton prices, thereby making whatever prosperity we may have permanent and taking us out of the hands of market manipulators and gamblers.
