### See the golden color as it pours

Many motorists do no more when buying oil than drive up and say "two quarts." Some go a step further and buy their oil by name. But the motorist who wants Texaco, and knows why he wants it, goes still further and *proves* that the oil he gets is the oil he pays for. He *identifies it* by the clean, clear, golden color of Texaco Motor Oil which is as distinctive and easily recognizable as the trade-mark on a sealed can.

See the golden color in the Texaco Comparoscope. Watch the golden stream as it pours. From then on — so long as you continue to buy golden Texaco — your engine will be free from carbon troubles and excessive wear. Consult the Texaco Lubrication Chart for the right grade to use.
