

PEEL MOTOR COMPANY, LOCAL CHEVROLET DEALERS, ANTICIPATING BIG SALES THIS FALL

Present Quality of Chevrolet Is Best Sales Argument

Local Chevrolet dealers, the Messrs. Luther and S. Collins Peel and H. T. Roberson, are expecting this fall one of the largest sales experienced in the automobile business here. The three members of the firm stated a few days ago that they were pleased with the outlook, and that with the present quality embraced in the car they expected to have many pleased Chevrolet owners between now and the next few weeks.

The Peele Motor Co., but recently organized here, is fast becoming one of the most wide-awake auto agencies in this section. The three members in the firm are widely known throughout the section, and they are natural-born salesmen. Not only that, but they have a good product and one that assures them of success. In all their dealings, and they have had a great many with the public at large, they have gained a wide reputation for fair dealings and the clean-cut method of transacting business.

Mr. S. Collins Peel, salesman for the Harrison Wholesale Co. for some time, is the latest member of the firm, and with him the organization is compete, having a member of the firm to handle and take care of every detail that assures service and quality to all Chevrolet owners. No car goes from their repair department without a stamp guaranteeing service.

The qualities of the Chevrolet speak for themselves; thousands of

C. O. MOORE HAS GOOD GROCERY

Quality, Service, and Reasonable Prices Key To Success

The advent of the cash and carry grocery has only stimulated trade in all those stores where quality, service, and comparative prices prevailed. This has been well illustrated in the case of the C. O. Moore & Co., grocers, for they have experienced an increase in business and enjoy a larger number of patrons on their list than before the cash and carry system was brought into play. It was upon a basis of service, courtesy, and quality that this store has increased its business.

Located on Washington Street, the store has always been a center of trade. Its management and employees take an active interest in affairs relating to the town's welfare. Mr. Moore, himself, is on the board of town commissioners and takes the interest of those whom he serves at heart.

owners right here in North Carolina are pleased with their purchases, and the sales of the cars are ever mounting upward.

These men have a mutual offer to prospective auto purchasers, and they will be glad to point out their car's features any time.

"SERVICE," MORE THAN A WORD HERE, UNUSUAL ICE CREAM SALE

The Central Service Station, located on the corner of Main and Washington Streets, Williamston, is this section's most prominent filling stations where Texas Products are sold.

The P. P. Peel Soda and Cigar Store, on Washington Street, is making a most unusual record in ice-cream sales. During the past two months, Mr. Peel stated that his store had sold over 600 gallons of ice cream. He carries as much as 60 gallons at a time, and carries every imaginable flavor. In the cigar line he carries 35 brands, and the store enjoys a large turn-over of them.

Mr. Peel carries a large stock of goods generally found in a soda and cigar store, and he is continuously adding to his stock.

THAT "GEORGE AND GUS HARRISON KNOW OIL" IS PROVEN BY LARGE SALES OF TEXACO

Harrison Oil Company, Although Only a Few Years Old, Now Supplies 170 Pumps With Gasoline, Besides Having Large Sale of Oils

With over 170 pumps in operation in this section, Texaco gasoline has reached the point where it runs more cars than any other gasoline in this county. These 170 points are supplied through the trucks of the Harrison Oil Co., local distributors of Texaco products.

The Harrison Oil Co. is only a few years old, but its own popularity and that of its products has made it advance in leaps and bounds and it is now one of the largest oil distributors in this part of the State.

Under the management of the

Messrs. Geo. and Gus Harrison the company has entered the by-roads and is now distributing oil in all corners of the county. This was not the case before these young men took over the local business of the Texas Company. In connection with this large territory, the company can not be excelled in service, for its trucks never stop unless the customer is well supplied. They begin early and work late, and the business goes on in an unbroken chain. Just how this phenomenal growth of the company came about is no secret, for they

take pleasure in their work, and they never consider a task complete unless it is done well. The expressions made by their customers attests the popularity of the two owners and managers. These expressions in condensed form read, "It is a real pleasure to do business with those boys."

The establishment of this company here has meant much to the town in that business transactions have been greatly increased and in that a service for gasoline dealers and users has been provided.

Hardly a week passes but that the Texas Company sends one of its large tank steamers up the river with thousands of gallons of gasoline and barrels of Texaco lubricants. By the end of the week, the supply is all but exhausted, and the tanker makes another trip.

No lapse in business is noticed with these two men. They go after business; they handle it to the full satisfaction of their customers, and they never allow a transaction to pass without making known their appreciation.
