

HARRIS MOTOR CO. SELL MANY CHEVROLETS

Robersonville Concern Has County Agency for Popular Car

A heavy demand for cars is expected within the next few days; in fact, one of the heaviest calls yet experienced is expected. Especially is this demand expected to be heavy in the purchase of Chevrolet cars. "Quality at low cost," and "Economical transportation," are attracting many prospective customers to the Chevrolet cars. The Harris Motor Co., Robersonville, has a large stock on hand, but advise early buying to avoid the rush and consequently facing an empty market.

Under the agency of the Harris Motor Co., Chevrolet cars have led

GRIMES AND SHELburnE TO OPERATE BRICK

(Continued from page one) Washington market. Many farmers in those two sections expressed their regrets when he left, but many have assured him that he was not too far away for them to visit him.

Mr. Grimes has been in our neighborhood so long that we feel sure all the farmers already know him. A good mixer, and an experienced tobacconist, he, too, has

many friends who welcome him here. The work of these two men here this year will be far-reaching in that they will add thousands of pounds of tobacco to the total sales and make many new friends throughout this entire section. They have been hard at work during the past few months, attending to those details vital to the successful running of a warehouse.

Farmers in the communities where these two men have worked recommend them highly; and we feel sure their presence on the market here will be looked upon as one of its greatest assets.

Ninety-three per cent of all the early-stage cases of tuberculosis treated at the North Carolina Sanatorium in the past 12 years are living, and 86 per cent are living and working. This is the sanatorium's answer to the question, "Is tuberculosis curable?" Taken in time, and treated right, it is.

FARMERS SUPPLY COMPANY Has Built Up Substantial Business in Short Period Time

Comparatively young in the mercantile history of the town, the Farmers Supply Co. has in a very short time built up a most substantial business, and is now serving efficiently a large number of customers. Under the management of Mr. W. O. Griffin, the store has established a policy of service for all its customers, and the manager and clerks take pleasure in looking after their customers.

The store carries a line of dry goods and groceries, and specializes in country produce, offering the highest market prices and selling on a very small margin.

OAK CITY BANK HELPS TO BUILD UP COMMUNITY

(Continued from page one) vided ample banking facilities for their people but they have gone ahead and have helped to provide the section with one of the best schools in the county. Surely, their work has not gone unnoticed, for the business of the institution has grown along safe and sound lines of conservative banking.

The bank invites the business of people anywhere, offering in return service and safety.

The institution has the backing and advice of such men as Messrs. H. S. Everett, the bank's president; N. M. Worsley, B. M. Worsley, S. W. Casper, W. R. Everett, S. J. Everett, J. B. Harrell, E. B. Hines, J. T. Savage.

Seed Rye

Peanut Bags
