### BAD PAINS IN SIDE

Spells of Nervousness Also Troubled This Lady Who Gives Cardui Credit for Helping Her Get Well.

Depew, Okla.—"For six years," says Mrs. Edd Burton, of this place, "I suffered as bad as a woman can suffer and still keep going."

"I was good for nothing, was lifeless and pale, unable to eat anything. Nothing agreed with me. At times I had such bad pains in my sides and back I would have to go to bed. I had cramping spells and would faint if I stood on my feet any length of time. My nerves would become upset at the least little thing and I would have spells of crying that were so exhausting they left me prostrate."

"Several of my friends suggested that I take Cardui. They told me of their experiences with it, how much they have been helped. At last I decided to try it."

"In a few weeks, I could see that I was improving, so I kept on. I did not expect the troubles of years to disappear in a few days, nor did they, but in time I was much better. I kept up the Cardui treatment for several months and thanks to it I am a well woman now."

The Above Four Words Are Synonymous With

## Star Cars

### POWER

The STAR is the acknowledged undefeated champion of the hills. There is no hill too steep nor mud too deep, for the power of the STAR is always ready.

Through marshland, snow, mud, or rut-up mountain grades and through the valleys, the STAR ever wends its way; reliable under the most trying and strenuous conditions. This is proof that the STAR still retains her power supremacy. Remember that the STAR is equipped with the Nelson Bohalite pistons—long life—50,000 miles or more—the only car in its class to have these pistons, which were made especially for Packard motors and airplane engines.

### COMFORT

148-inch spring base. A rubber-cushioned motor, giving a continuously even flow of quiet power. A 16-inch steering wheel and the new semi-irreversible worm drive steering gear, with a low ratio to facilitate driving on balloon tires. These are some of the comfort-giving qualities of the STAR car.

### BEAUTY

Even the most discriminating critic has to admire the distinguished style and beauty of the STAR. The graceful and blending stream lines, heavy crown fenders, and artistically modeled radiator, and the highly polished body finished in harmonious colors give it an added and unequalled individuality.

### ECONOMY

Superior carburetion gives high gasoline mileage. Oil tight motor construction gives high oil mileage. Superior design and manufacturing methods, and the use of only the highest-class materials give low mechanical upkeep. The long life of the STAR car gives small annual depreciation.

These are some of the factors which continue to give the STAR car transportation the lowest cost automotive report from 15,575 STAR owners from all parts of the country. These owners report on an average per mile cost of 2 3-20 cents.

Come in and let us show you the latest of these super low-priced cars.
