Destroying the Government's Crop Reports

It looks like a slick trick for the cotton gamblers to destroy the government's cotton crop reports, which they, or some other unseen hand, seem likely to do.

It may be true that the reports have been sold to the gamblers a few times, as they may have recently been; but what would have been the result if the government had issued no crop reports and if the people had only reports issued by the brokers themselves to guide them on the crop yield?

What we need is sufficient honest officials to do the right thing, even though the pressure of money is high.

The fact that the government gathers information that corrupt gamblers are willing to spend large sums of money for before it is given out to the people is evidence of its value.

County Loses a Valuable Servant

In the going of Miss Anna Trenham, home demonstration agent, Martin County loses one of its most faithful and valuable servants. Miss Trenham came to us a year and a half ago and began the organization of a real work among the women and girls of the county. She has gone into the homes of all classes, the rich and poor alike, and has given cheer and inspiration to many who are too often neglected under ordinary circumstances.

The salary paid Miss Trenham was a minor affair compared with the number of lives she has touched and inspired to make for better people, better homes, and better things in the homes.

The thanks of our people are due Miss Trenham, and they will wish for her success in her new work.

Fire Prevention Week

The Williamston fire company has been called out twice in 10 days on account of oil stoves, which are perfectly safe when properly used but very dangerous when handled carelessly.

Governor McLean has set apart next week, October 9 to 15, as Fire Prevention Week.

Our people should not look lightly upon this effort to fight against fire.

Carelessness causes many fires; care prevents many fires.

Eastern Carolina "Telling the World"

Eastern Carolina has been introducing herself to the world this fall, according to Sol Cherry, assistant secretary of the Eastern Carolina Chamber of Commerce. He has shown, by picture and pamphlet, our advantages as a good place to live and thrive to 700,000 people in Indiana, Illinois, Ohio, Kentucky, and Tennessee. Mr. Cherry says he had many calls for special literature. He further states that although those States are fine, they are far behind us in advantages.

He says most of the folks have heard of Winston-Salem, Charlotte, and Asheville, but that is about all they know about North Carolina; and many of them had never heard of our section of the State until recently.

Another fine piece of good advertising comes from the *Manufacturers Record*, which describes the electric advantages and growth in our State, including the Southern Power Co.,

the Carolina Power & Light Co., the Tidewater Power Co., and the Virginia Electric & Power Co., which are today lighting most of the towns and cities of the State and driving a majority of the factory wheels.

Eastern Carolina has always known itself, but when it came to telling the world we have lain in sleepy hollow much longer than did Rip Van Winkle. We should appreciate the breaking of the day, even more since it comes at the end of a long night.

Rhodes joins said road, thence in a northeast direction with James S. Rhodes line down a small branch about 290 feet to the first fork in said branch; thence up said left fork of said branch with W. C. Manning's line in a northwest direction about 75 feet to the said

FELT VERY POORLY

Weak and Run-Down Missouri Woman Got Strong and Well. Says Cardui Started Her On Road To Health.

Clarksburg, Mo.—Mrs. T. G. Harris, of this place, says:

"For two years I was in very poor health. Some of the time I was almost past going. I was very weak and run-down.

"I tried to make the most of what little strength I had by taking frequent rests, but I could find nothing which would start me on the road to health again, until one day I decided to try Cardui.

"I had heard about other women who had been benefited after taking it, so I made up my mind to see what it would do for me. I took Cardui for several months and was very much gratified with the results. I began to do my own work again, which I had not been able to do for a long time past. My color, which had been pale and sallow, became natural, and my complexion cleared up. I gained in weight and was pleased to have an improved appetite.

"When I finished my last bottle of Cardui I was feeling better than I had in years. Now I am strong and well."

11,105* doctors give written opinion

"Roxy," a favorite in Radio-land, writes:

"During a strenuous rehearsal, with the work entailed in operating the World's Largest Theatre, where one's nervous system is working under great pressure, there is no more refreshing than Lucky Strike's cigarette. It does not impair the voice, and gives the mental relaxation so essential to carry on."

WHAT is the quality that Giuseppe Danise, Adam Didur, Queena Mario, Antonio Cortis, Lenore Ulric, Nanette Guilford, Wilton Lackaye, "Roxy," and other famous singers, actors, broadcasters and public speakers have found that makes LUCKY STRIKES delightful and of no possible injury to their voices?

For the answer we turned to medical men and asked them this question: Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105* doctors answered this question "YES."

These figures represent the opinion and experience of doctors, those whose business it is to know.
