SAYS NEW FORD OFFERS MANY IMPROVEMENTS

Standard Gears, 4-Wheel Brakes, 60 Miles Hour Are Features

Four-wheel brakes, standard selective gear transmission, extraordinary acceleration, a speed of sixty miles an hour and more, a practically vibrationless engine, and unusual beauty in line and color are among the outstanding features of the new Ford cars, the first of which will be shown in many parts of the country next Friday. The generator, oiling system, steering gear, and rear axle are of new Ford design, it is announced. And its 40-horsepower engine has been so designed that it runs 20 to 30 miles an hour on a gallon of gasoline.

new Ford line will be on display here. So far the new cars have been examined only by those who will have charge of the first showings and demonstrations. Salesmen and demonstrators are studying charts and diagrams which will be used in explaining the various details of design, appearance and performance.

For months factory models of the new car have been undergoing severe performance tests in and around Detroit. One of these factory models recently made a road run of 120 miles in 124 minutes. This run, it is said, was made on an ordinary paved highway near Detroit.

Local dealers, in commenting on the forthcoming show, said their first view of the new Ford car had substantiated Henry Ford's statement that "there is nothing quite like it in quality and price."

"Mr. Ford's statement had prepared us for a surprise," said a local dealer, "but the new Ford car is better even than we had hoped for. It is certain to make history in the automotive industry, just as its predecessor, the famous Model T, has made history for twenty years. We are proud of the new car and feel certain that its appearance and performance will attract unprecedented attention among automobile owners."

GOT RID OF POISON
Kentuckian Finds Black-Draught a Great Aid in Relieving Constipation, and Soon Feels O. K.

Catlettsburg, Ky.—Mr. Miles Hopkins, of 1218 Center Street, this city, says:
 "There was a time when my health was not so good. I suffered a great deal from gas pains. My system was saturated with poison which was not properly eliminated. From time to time I had severe headaches, and I felt sluggish and dull. I knew of Black-Draught as a medicine for constipation, so I thought I would try it. For a while I took a small dose every night until my system was rid of the accumulated poison."

"I gained in weight and my general health was good. That experience made me realize the merits of Black-Draught. I kept it in my home and when I begin to feel lifeless and dull, I take a dose, after which I feel O. K. again."
 "People generally do not realize the risk they take in allowing constipation to run on. I try to keep my system cleansed, and I find Black-Draught a great aid in doing this."
