Buy It From Margolis Bros. The Gifts That Will Please Him Most

Mufflers—A soft silk ora worsted—either in the gayest of colors or color combinations, and each in a special Christmas box. A gift he will appreciate. \$2.

Lounging Robe.—All women know how men folks dote on lounging robes of gay hue. Here is the ultra in gifts, for husband, father, brother or son. \$5.50 and up.

SHIRTS—FIRST CHOICE

Fine shirts are always first choice and one of the best choices for practical Christmas giving. And one can not receive too many shirts at Christmas time. In our shirt department we have assembled a line of the finest shirts ever displayed in holiday showing, including all the new plain colors with collar attached or detached, fancy stripes and mixtures, or the ever reliable white in English broadcloths, basket weaves, and fine linen. They are priced at \$1.50 to \$5—and you will make no mistake in seeing these before selecting a gift for him.

Buy his gift at a man's store. He will know the moment he glances at it whether or not it is right. No doubt this store is his store—so you can pay him no greater compliment than selecting his gift here. Our prices are always lowest—consistent with good merchandise.

Throughout every department you will find suggestion after suggestion; wind-breaks, caps, belts, buckles, watch guards, cuff links, suspenders—and NECKWEAR—you never saw a more wonderful selection. Many with special boxes all their own—and some in special sets.

Margolis Brothers

N. B.—While this space is solely devoted to our men's department, yet we take great pride in offering so many practical gifts in our ladies' department—from linen handkerchiefs to silk pajamas and gowns. Visit our store, and your problem will be solved.

Wealth Follows the Power Line

Dr. James S. Thomas, Director of the Extension University of Alabama, says that no country which depends solely upon agriculture is rich; that the countries which combine agriculture and manufacturing are the richest nations and are where the happiest people are found.

Fifty-nine per cent of the wealth of the State of Alabama is in 15 manufacturing counties.

In Tennessee 62 per cent of the wealth is found in 15 manufacturing counties; the other 80 counties are farming counties and own the other 38 per cent of the wealth.

In Gorgia 50 farming counties owned 25 per cent of the wealth, and 15 manufacturing counties own the other 75 per cent.

The same thing applies to North Carolina.

Forsythe, Mecklenburg, Gaston, Durham, Guilford, and a few of the counties that have cheap electric power have grown vastly rich.

Eastern North Carolina has every advantage that the Piedmont section has except cheap power in large quantities.

If Williamston ratifies the proposal to sell its plant, it will be able to guarantee power to thousands of acres of factories, for

silk mills, cotton mills, wood-working plants, or any other kind that requires power to drive machinery.

Then, there is another angle to the location of manufacturing enterprises in agricultural communities. Again quoting Dr. Thomas, "Here are two counties, neighbors: Calhoun County (Ala.) with assets valued at \$23,000,000; this county here has \$426,000. They have the same tax rate, \$1.80; one is agricultural, and the other has some industries, and you can see the results on this chart. This county has as many roads to keep up as this one, and one hundred and twenty-five more miles; they have children to educate, county government to carry on. This county has no hospitals, playgrounds, welfare communities. Why? No wealth!

This is the sort of thing I think the farmers of our State will finally get, and I think they will find out after a while that the farmers' salvation lies in having industries in their communities so as to bring in big pay rolls. The salvation of the farmer is to get some more industries so he can sell out of the tail end of his automobile anything he can coax out of the ground. That is what we are trying to tell them."
