The Soberest Christmas in Many Years

Williamston experienced the soberest Christmas this year that it has for many years. A staggering man was hard to find, and very few folks were even talking loud. The only reason why people were soberer than

usual was because they had had less liquor, of course.

Yet there are those who say it is worse than it used to be. Those who remember how it used to be, of course, know they are wrong.

One More Day—How Will You Spend It?

One more day before the books close on 1927. A few more chances to do some good deed, but too late to make a complete success, unless the foundation has been well laid and properly worked during the days already passed. Not too late, however, to do a bad thing and spoil a whole year. One day is enough to begin and finish a bad deed.

Regret and remorse are very undesirable guests. All those who look over their record and find ground for regret, and who think of some deed done that strikes their heart strings

with pangs of remorse, will have only one day to balance up the year's accounts. And then begins another year which will bring us all opportunities to write a good record.

If we have failed in this year to do what we should, we should not forget that we will have 366 days in 1928 to write a good book. What we need to do is to let the book have 366 clean pages without any blots. Good resolutions for the first day of the year, kept every day in the year, will look good to us as we review it in old age.

North Carolina's Advantages

North Carolina is the place to live. It is American, and we all feel a pride in that word "American," it makes no difference whether we hailed from Spain, China, Greece, Scandinavia, or any other part of the world, with the possible exception of England and Germany, who may not fully appreciate America. To all those who do, North Carolina has the purest American citizenship to offer.

Then, North Carolina leads in so many of the things that make happiness. We have all the agricultural products necessary to feed and clothe man and beast. We have all the timber needed to shelter and warm them. We have almost all the necessary minerals to supply their needs.

We have the streams and waters for both good drainage and transportation. We have the fish and game for food and fun. We have good transportation, rail, boat, and motor, which puts us within 24 hours of 50,000,000 neighbors and friends. We have schools and colleges. In colleges we have the greatest educational center in the world, according to population, with the radius embracing the University, State Col-

lege, the several women's colleges at Raleigh, Duke University, the several Greensboro colleges, Elon, and several other institutions which would fall within a circle taking in Raleigh, on the east, and Greensboro, on the west. No territory in the entire world with a like population can touch us, and then almost every child in the State is now (if not, soon to be) in reach of a good high school.

Socially, we are as friendly as any people anywhere.

Those Whose Business it is to Know

Lucky Strikes—the finest cigarettes ever made. 11,105* doctors give written opinions about smoking and throat protection.

WHAT is the quality that Giovanni Martinelli, Mary Garden, William Hodge, David Belasco, Lenore Ulric, Fiske O'Hara, Blanche Ring, and other famous singers, actors, broadcasters and public speakers have found that makes LUCKY STRIKES delightful and of no possible injury to their voices?

For the answer we turned to medical men and asked them this question:

Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105* doctors answered this question "YES."

These figures represent the opinion and experience of doctors, those whose business it is to know.

Fiske O'Hara, Pleading Stage Star, writes:

"The throat is a delicate instrument which all singers protect with the utmost care. To avoid irritation, I smoke Lucky Strikes. They are not only kind to my throat but have the finest flavor."

"It's toasted"
No Throat Irritation—No Cough.

In business, we are ahead of all our neighbors. We are leading all the States in many items of manufactured goods. Our ratio of wealth increase is three times greater than the average for the United States.

With all these fine advantages, we should take every opportunity to further develop our State, which has only commenced to be a great State, if we will only work and let her grow.

We must not watch her grow, because we have no time to stop and watch. Nineteen twenty-eight will soon be here with abundant opportunities.

Don't dose a Child's Cold
CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:
(1) The body heat releases the ingredients in the form of vapors which are inhaled.
(2) At the same time Vicks "draws out" the soreness like a poultice.

WEAK, NERVOUS

Georgia Ludy Could Not Sleep Nights, But After Taking Cardui She Was "Like a Different Person."

Coker, Ga.—Mrs. C. H. Smith, of this place, related the following interesting experience:

"I was weak and nervous and run-down. I couldn't sleep at night. I felt tired and not in condition to do my work. I had Cardui recommended to me, but always thought I could out-do most sickness, but this was one time I needed help. I was so weak I could hardly lift my hand.

"I can't express how bad I felt. I know I improved after taking Cardui. I was like a different person. I was built up and was stronger and better than in a long time.

"I have a young daughter who had the 'flu' and after she got up she would once in a while have such severe cramping spells, just suffer terribly. I knew there was a weakness and, hoping Cardui would reach this trouble, I had her take it, and the first bottle helped her so much she was able to leave it off and does not have this trouble now."

Cardui has been in use for more than 60 years.
