SPOTS BEFORE EYES

Blind Had Dark Spots Before Eyes. Felt Dull, Tired, Achy. Doesn't Get Down Any More.

Somerset, Ky.—Telling how he had known of the merits of Theodor's Black-Draught since he was a boy, Mr. Albert Garland, of this city, recently said: "I used to work in the mines, but lost quite a bit of time on account of the sick spells I had. I would get to having a bad taste in my mouth, and a very dull, tired feeling and ache. I would have dark spots in front of my eyes, and I would be so dizzy I would stagger like I was drunk. "I took medicine, but didn't seem to get any better. "My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken. "I never get without Black-Draught. If I go on a visit, I take a package along in my suit-case. My health is better now than it has been in years, and I believe it is the use of Black-Draught that did it. "Black-Draught is prepared from medicinal roots and herbs, of high quality. Try it. NC-188

THEODORE'S BLACK-DRAUGHT

Leaves for Henderson

WILL BUILD NEW ASSEMBLY PLANT

Chevrolet Motor Co. Plans Huge Plant At Kansas City, Missouri

Detroit, May 29.—Marking the latest step in a movement to keep pace with the growing demand for its product, the Chevrolet Motor Co. announced here today that construction will start shortly on a mammoth Chevrolet assembly plant in Kansas City. This follows closely on the opening of a similar plant in Atlanta to serve the Southeast. When completed, in October, the Kansas City plant will be the largest automobile factory in the Southwest and will represent an investment of more than \$2,250,000. Like the Atlanta plant, the Kansas City factory will have a capacity of 350 cars a day, providing Chevrolet with facilities for the production of more than 1,250,000 cars annually.

W. S. Knudsen, president of the Chevrolet Motor Co., declared today that the opening of a plant in Kansas City has been made necessary to relieve the St. Louis and Janesville factories, where the demand has been taxing production facilities and making it necessary for both plants to work overtime for the last three months. It is a further step in the company's program to insure a regular flow of cars in line with the exceptional public demand, he said.

Twenty-eight acres in the Leeds district have been taken over for the various buildings which will include the main Chevrolet-Fisher assembly unit, an office building, parts and service building, driveway shed, loading dock and power house. With the exception of the office building the units will all be of one story, monitor type roof construction, allowing for the maximum amount of light for workmen.

GLENN-CROCKFORD The marriage of George R. Glenn and Florence E. Crockford, nee Standish, both of 112 Otis Street, Malden, Mass., took place on May 6, Rev. C. J. Cowing, of the First Universalist Church, Malden, officiating. SOJA BEANS FOR SALE. PRICE cheap. See me at once. G. H. Mizell, Jamesville, Route 2. are grandchildren of Williamston. Their mother, Mrs. Herman Horne, wife of the professor of psychology in the University of New York, was formerly Miss Bessie Worthington, of Williamston, a daughter of the late Denison and Julia Worthington, who lived in Williamston many years ago. Older residents will recall that Mr. and Mrs. Worthington lived on the spot where the old Sitterson residence stood. The pictures of Dr. and Mrs. Horne's children which appeared in the New York paper were those of her daughter, Julia Horne, who has taken a place for herself on the New York stage, appearing under the name of Eve Casanova. This young woman has played prominent parts with such distinguished actors and actresses as Ethel Barrymore and Lou Tellegen. The other pictures were those of Dr. and Mrs. Horne's son, Williams, now a junior in New York University. Young Mr. Horne has recently been elected president of the Alpha Beta chapter of the Phi Kappa Tau fraternity. The other picture was that of Miss Betsy Worthington Horne, also a junior in New York University. This Miss Horne has recently completed a year's study at the University of Madrid, Spain, and was recently elected to membership in the Franco-American Society of New York City.

New York Times Carries Pictures Of People Known Here

Williamston people are much interested in some pictures which appeared in a recent Sunday issue of the New York Times. Some of the older residents recall that these young people

YOUR case of PILES is no different from others, and if others have obtained absolute relief by using PAZO OINTMENT, so can you. Every drugstore sells PAZO OINTMENT under a guarantee to cure itching, blood, bleeding or protruding Piles. In tubes with plus caps, 50c or in tin box, 60c. Why not try it.

Years of Service in Model T Fords Expenditure of few dollars may enable you to get thousands of miles from your old car THE Model T Ford is still a great car. It led the motor industry for twenty years and it is used today by more people than any other automobile. More than eight million Model T Fords are in active service in city, town and country, and many of them can be driven for two, three and five years and even longer at very small up-keep expense. The cost of Model T parts and of necessary labor is unusually low because of established Ford policies. New fenders, for instance, cost from \$3.50 to \$5 each, with a labor charge of \$1 to \$2.50. Tuning up the motor and replacing commutator case, brush and vibrator points costs only \$1, with a small charge for material. Brake shoes can be installed and emergency brakes equalized for a labor charge of only \$1.25. A labor charge of \$4 to \$5 will cover the overhauling of the front axle, rebushing springs and spring perches, and straightening, aligning and adjusting wheels. The labor charge for overhauling the average rear axle runs from \$5.75 to \$7. Grinding valves and cleaning carbon can be done for \$3 to \$4. A set of four new pistons costs only \$7. For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. Parts are extra. All of these prices are approximate, of course, because the cost of materials needed will depend on the condition of each car. They show, however, the low cost of putting the Model T Ford in shape for thousands of miles of additional service. See the nearest Ford dealer, therefore, and have him estimate on the cost of re-conditioning your Model T Ford. He will tell you, in advance, exactly how much the complete job will cost.
