folks, they want to do as they please. Therefore, they demand States rights.

More restrictions in marriage laws and fewer divorce laws will tend to make a better people.

Beer vs. Whisky

For something more than a quarter of a century, a fight has existed between beer and whisky. Knowledge and civilization among the people found the influence of whisky dangerous and intolerable and the people at large began to fight it.

The beer manufacturers then fell in line and also began to help in the warfare against whisky. They felt that if they could get whisky out of the way that beer and wine would live and reign forever. There was more than three times as much invested in the making of beer as there was in the manufacture of whisky, and the beer makers proved a good ally. But the people looked at it quite differently, and they got behind both the whisky and beer evil and outlawed both.

Since that very day a strong fight has been waged by the German "Hizers" and "Izers" to bring beer back. The organization has kept close on the job at all times and put out much false propaganda to divert the minds of the people from the truth. They have gone far enough to say that there is more drunkenness in Williamston than in the old liquor days; and, as absurd and false as the statement is, there are a few people who claim to believe it.

Marriage Laws Need Strengthening

Dr. R. M. Buie, now health officer of Guilford County, praises the present marriage laws of North Carolina, which require physical examination of both parties to every marriage.

Of course, it is a good law, and the doctor is right; it should be national in scope. There is no reason why a mental degenerate or a physical wreck should flee from North Carolina to Virginia or South Carolina and marry, only to return and transmit their low mentality and loathsome diseases to a new generation.

But Dr. Buie should remember, although he is right, that folks who want to get married are like liquor

The public need not be fooled in what is going on, because the simplest can see the signs of the times. If we are to be recast in a political and social system that demands the revelry of liquor and the slop of beer, it only means a backward step; a going down hill, which will necessitate a new fight to redeem the standard that so many demand that we surrender.

It is too costly an experiment, and the American people should never bow down and surrender their independence and decency to a ring of foreign beer manufacturers. If liquor is to reign in every phase of its old-time glory, except possibly the bar room, then mark the signs of its destruction, which is sure to follow, and show one case where it has failed to conquer its victim.

to appear within the time above set out and set up their claims in said action upon pain of being forever barred and foreclosed of the same.

This 15th day of August, 1928.
R. J. PEEL,

SPOTS BEFORE EYES
Miner Had Dark Spots Before
Eyes. Felt Dull, Tired,
Achy. Doesn't Get
Down Any More.

Somerset, Ky.—Telling how he had known of the merit of Theodor's Black-Draught since he was a boy, Mr. Albert Garland, of this city, recently said:

"I used to work in the mines, but lost quite a bit of time on account of the sick spells I had. I would get to having a bad taste in my mouth, and a very dull, tired feeling and ache. I would have dark spots in front of my eyes, and I would be so dizzy I would stagger like I was drunk.

"I took medicine, but didn't seem to get any better.
"My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken.

"I never get without Black-Draught. If I go on a visit, I take a package along in my suit-case. My health is better now than it has been in years, and I believe it is the use of Black-Draught that did it."

Black-Draught is prepared from medicinal roots and herbs, of highest quality. Try it. NC-195
