that added to the list of those who come in from tion in our country.

With work by machinery taking the place of human labor, and the slowing down in our foreign market demand, we will soon have a lot of people in this country with their toes on the bread line.

The flood of foreigners to this country means the loss of jobs by the negro and white laborers. The oversupply of labor will naturally force prices down and the fight will come between the American white, the negro, and the foreigner. Then the man who can overwork and underlive will get the job. This will certainly eliminate the American white man. He may be able to work along the side of the negro and the foreigner, but either can underlive him.

"Liberty" and Bigotry

"Liberty," which calls itself a "magazine of religious freedom," seems, according to some opinions, to have the very fault of which it accuses others, "bigotry."

The magazine like all other contentious arguers has a lot to say, but unfortunately every word is against the general trend of the Christian system, practically segregating sin to earth and Christianity to heaven. The magazine seems to lose sight of the fact that the church was organized and ordained of God to set up a kingdom-of-righteousness on earth. Yet it would deny the Christian to speak in any matter affecting the State. It is another case of trying to push justice and right afar off, so the world may wag on in its own paths without molestation.

The magazine seems never to have heard of the many cases when the power of God came to earth and destroyed the unrighteous and those who refused to obey the laws.

In the new era, when He sent a greater love to lead men and changed His manner of dealing with His creatures, there arises the same old spirit and calls itself "Liberty." False liberty. It is only another case of men's boasting of their right to sin.

They are not mindful of the fact that Jesus Himself denied robbers the right to enter the temple and defile it and overthrew them and kicked them out. And if Jesus gave the church any great duty, it was to put sin out of the world.

But "Liberty," in its rights of speech and press would deny everything done in the name or spirit of Christianity that would restrain men. It is like its sinful brothers—it wants Christianity to stay a long way off.

A Department To Be Proud Of

Our State Board of Health still thinks of the hundreds of unfortunate boys and girls of Martin County who are being poisoned to death and whose frail bodies are being filled with disease by bad tonsils, adenoids, and teeth.

They expect to put on another clinic in this county during the school term.

If our State has any department that it should be proud of, it is the State Health Department, which both directly and indirectly is saving numbers of lives, untold suffering, and millions in money each year, both in actual service and in educating the public.

SPOTS BEFORE EYES

Miner Had Dark Spots Before Eyes. Felt Dull, Tired, Achy. Doesn't Get Down Any More.

Bomerset, Ky.—Telling how he had known of the merit of Theodor's Black-Draught since he was a boy, Mr. Albert Garland, of this city, recently said:

"I used to work in the mines, but lost quite a bit of time on account of the sick spells I had. I would get to having a bad taste in my mouth, and a very dull, tired feeling and ache. I would have dark spots in front of my eyes, and I would be so dizzy I would stagger like I was drunk.

"I took medicine, but didn't seem to get any better.

"My mother told me to try Black-Draught, which I did, and after a few doses I felt much better. Now I take it as soon as I feel the least bad, and I don't get down. I certainly can say that it has done more for me than any other medicine I have ever taken.

"I never get without Black-Draught. If I go on a visit, I take a package along in my suit-case. My health is better now than it has been in years, and I believe it is the use of Black-Draught that did it."

Black-Draught is prepared from medicinal roots and herbs, of highest quality. Try it.

Good Government

Can we have good government? It is doubtful until our people catch a higher vision of principle and less attention to policy.

The country has drifted into the hands of contesting and contending politicians, whose apparent principal business is to hold office.

We find the two principal features in American politics are, first, get into office; second, stay in office. This generally keeps our officials so busy that they never do much thinking for the people. The whole mind and soul of large numbers of officials is "What is popular?" and not "What is good?"

In the present political crisis, nothing is at issue that means a cent's profit to the people. And yet politicians are going the rounds stabbing each other and calling themselves crusaders for good government.

Good government is a long way off and will never come until the people become sufficiently wise enough not to permit officeholders and office-seekers to trouble and muddy the political waters and obscure the fundamentals that promote and guard the governmental rights of the people.

The Immigration Problem

With a big immigration, who will hold the jobs in this country ten years hence? It is estimated that about a half million foreigners are being bootlegged into the United States each year. Most of them are working men. This number, added to the half million foreigners received through the legal channels makes about one million foreigners added to our population each year. Naturally our population is also gaining from the increase of births over deaths, and
