Visiting Mr. and Mrs. Crawford Mrs. Rachel B. Ross, of Philadelphia, Pa., is visiting her sister, Mrs. K. B. Crawford, and Mr. Crawford for a month.

Return From Hospital Mrs. J. S. Rhodes and son, Jim, Jr., have returned from the Washington Hospital, where Jim, Jr., was operated on for appendicitis last week. He is getting along very well and expects to be out soon.

Leaves for Georgia Saturday K. B. Crawford will leave Saturday night for Georgia, where he will do special agent's work for the Home Insurance Co. for the next month.

Announce Birth of Son Mr. and Mrs. C. B. Siceloff announce the birth of a son, Charles Briggs Siceloff, Jr., on Wednesday, March 6th, at their home at the Britt Hotel.

Here From Richlands Mr. and Mrs. Venters, of Richlands, came here Wednesday from Richlands to get their son, Vick, who has been suffering from an attack of appendicitis since Sunday. The young Mr. Venters came here to spend the week end with friends and was taken ill.

Visitor Here This Week W. I. Skinner, of Greenville, was a visitor here this week.

Leave for Raleigh Mrs. Elbert S. Peel and son, Elbert, Jr., left this afternoon for Raleigh, where they will spend the week end with Mr. Peel, who will be in Raleigh until the legislature closes the first of the coming week.

Here From Washington Mrs. Robert S. Bogart and little daughter, Sallie Smallwood, of Washington, visited relatives here Wednesday.

In Town Wednesday Misses Flora Davis and Daisy McGee, of Raleigh, were in town Wednesday.

Attend Show in Raleigh Mr. and Mrs. Frank J. Margolis attended the show, Rio Rita, in Raleigh last night.

Here From Scotland Neck Shields Alexander, of Scotland Neck, was in town yesterday.

To Leave Sunday Miss Janie Freeman will leave Sunday for New York after visiting the Cones for a week.

In Tarboro Yesterday Mrs. J. D. Woolard, Mrs. A. R. Dunning, Mrs. John W. Manning, Mrs. J. W. Watts, Jr., and Mrs. G. H. Harrison spent yesterday in Tarboro.

In Town This Week Mr. Weeks, sales manager for the Virginia Electric & Power Co., of Roanoke Rapids, is in town this week.

Spend Thursday in Suffolk Judge Walter Bailey and Mr. Mark Chesson spent yesterday in Suffolk.

Attend Show in Raleigh Misses Susie James and Elizabeth Gurganus and Jack Biggs, Lyman Britt, and Raymond Taylor attended the show, "Rio Rita," in Raleigh last night.

Leaves for Raleigh Miss Eugenia Hoyt left today to spend the week end with Miss Miriam Courtney at Meredith College.

In Town Thursday Mr. W. E. Tice and son, of Grifins Township, was in town Thursday.

Here From Raleigh Mr. Milton Williamson, representing the J. L. Lassiter Paving Co., spent Wednesday and Thursday here on business.

Visitor Here Yesterday E. H. Liverman, of Plymouth, was a business visitor in town Wednesday afternoon.

In Palmyra Yesterday W. C. Manning was in Palmyra Thursday on business.

In Greenville Thursday Mr. Dred Darden, manager of Youngs' Store here, made a business trip to Greenville Thursday.

Attend Show in Raleigh Mr. and Mrs. Frank Margolis attended the show in Raleigh last night.

Visits in Rocky Mount Mr. W. H. Gurkin visited friends in Rocky Mount Thursday night.

Leave for Raleigh Toddlie Holding, George Sheron, Monk Cobb, Bill James, A. J. Manning, Albert Cook, Hibbel Liverman,

Jennie Hardison, George Harrison, Jr., and Herbert Cowan, Jr., members of the local basketball team, with Brodie Ezra Hood, coach; Paul Simpson, business manager; Eli Barnhill, time-keeper; Buckie Saunders, Jr., mascot; and C. B. Clark, Jr., score-keeper, left yesterday for Raleigh, where they are attending the State high school basketball tournament.

Hrs. Holiday Hostess to Twentieth Century Club The Twentieth Century Club was entertained by Mrs. Harper Holliday at her home in New Town on Wednesday afternoon at 4 o'clock. The program for the meeting was on "Art in France."

Mrs. J. W. Watts, Jr., read a very interesting paper on "Corot," and this was followed by a piano solo by Mrs. W. C. Manning, Jr., which was greatly enjoyed. Mrs. Elbert S. Peel read a paper "The Luxembourg Gallery." Mrs. W. K. Parker concluded the program with "Current

Events" The club passed a resolution to ask Mr. Sibert Peel, senator from this district, to fight the Hancock bill in the part urging such strict economy in the schools.

The hostess, after serving a salad course, was requested to sing, and she charmingly sang several selections which added much to the attractiveness of the meeting.

Mrs. Holliday had as special guests: Mesdames C. G. Crockett, W. C. Manning, Jr., Milton Moye, J. D. Biggs, P. B. Cone, and Miss Janie Freeman, of New York.

NOTICE OF SALE Notice is hereby given that under and by virtue of the authority contained in a certain deed of trust executed by W. R. Koebuck and wife, Dora Koebuck, bearing date of January 2nd, 1928, and recorded in book P-2, at page 272, in the public registry of Martin County, North Carolina, the said deed of trust having been given to secure the payment of certain notes of even date and tenor therewith, and default having been made in the payment of said notes, and the terms and conditions of said deed of trust not having been complied with, and at the request of the holder of said notes, the undersigned trustee will, on Monday, the 25th of March, 1929, at 12 o'clock noon, at the courthouse door of Martin County, at Williamston, North Carolina, to the highest bidder, for cash, a certain tract of land lying and being in Martin County, Bear Grass Township, and bounded and described as follows, to wit: Beginning at a cypress in Turkey Swamp, J. H. Leggett's corner in W. R. Harrison's line, thence said Harrison line along a line of marked trees

to a corner, black gum. Thence down Great Branch to a little gum of marked trees along a little branch to a public road. Thence a southwesterly course to a public road to a lightwood post, corner of garden, thence a westerly course with a garden to a lightwood post, thence a northwesterly course to a gum and little branch. Thence down run of said branch to H. W. Leggett's line, thence with H. W. Leggett's line to beginning. Containing (52) fifty-

two acres, more or less. Dated this the 20th day of February, 1929.

JAVAN ROGERS, Trustee.

NOTICE Having this day qualified as executor of the estate of A. B. Waters, deceased, late of Martin County, North Carolina, this is to notify all persons holding claims against the estate of

deceased to present same to the undersigned for payment on or before the 14th day of February, 1930, or this notice will be plead in bar of any recovery thereon. All persons indebted to said estate will please make immediate payment.

This the 14th day of February, 1929. JOHN A. WATERS, Executor. R. L. Coburn, attorney.

Good Cotton is Wanted

In the United States the demand is greatest for strict low middling, middling, strict middling and good middling from 15/16 to one inch in length, says the 1927 Yearbook of Agriculture. These four grades made up 85.05 per cent of the total consumption by American mills. All the lower grades together accounted for only 13.38 per cent. The demand for cotton under 3/8 inch in length was less than one-tenth of 1 per cent of the whole. In the words, GOOD cotton is wanted—cotton up to a standard, and the farmer who uses V-C has to sell!

"In competition with modern industry, the farmer must swing into step with the march of modern business methods."—U. S. Department of the Interior.

Back Up the Scientists

Everybody can eat just so much and put on so many clothes—and he can't eat or wear any more, no matter how rich he is. But on other things his pocketbook is the only limit. The job is to learn how farm products can be used in making these

other things too. They hold big opportunities. Cotton seed used to be a big nuisance around gins, for instance. Now it is worth real money, thanks to the scientists. Scientific research must stay on its job of hunting for new values in old farm products. There ought to be a good use—besides just eating it or wearing it—for EVERY crop a farmer can grow. Let's back up the scientists with encouragement and money and they'll dig up hidden markets all around us.

"Labor required for producing a pound of tobacco ranges from about ten-lenths of an hour (48 minutes) in Virginia bright to about three-lenths of an hour (18 minutes) for 'velvety dark.'"—YEARBOOK OF AGRICULTURE.

One Ton Against Fifteen

Less than 27 pounds of plant food are in a ton of average livestock manure—27 pounds in 2,000. "At the other 1973 pounds 'filler'" as the National Fertilizer Association. It then points out that a ton of 5-8-7 commercial fertilizer contains 20 units or 400 pounds of plant food—as much as you'd find in 15 tons of manure.

Puts Money in the Leaf

Yield and quality must balance if the tobacco grower is to make full profit from his crop. All authorities agree on this. V-C Fertilizers are recognized as a vital factor in

good yields of quality leaf. Made especially for a purpose—made carefully, thoroughly, honestly—they contain the usual ingredients plus one more that is not a chemical. V-C's good name. Successful growers prefer V-C Fertilizers, because they know this fourth ingredient is there. They have learned that it puts the money in the leaf.

"There is not an acre of land in the whole United States that doesn't need at least one of the three principal elements of a complete fertilizer."—H. D. Wilson, Louisiana Commissioner of Agriculture.

Why is the boll weevil always called "he"? It's the he that does the damage.

Learn to Fertilize Right

"The use of commercial fertilizers is rather generally practiced, particularly in the eastern humid sections of the Cotton Belt. Unfortunately in many cases apparently too little is used, or it is used without enough skill to secure the best results."—Yearbook of Agriculture.

"I have used V-C, and although the boll weevil hit our county hard I made over a bale to the acre."—J. W. Long, Tarboro, N. C.

Artificial Cotton Now

Between three and four million pounds of "artificial cotton" are now being grown in England, according to a report from London. The fiber is described as growing on a plant seven feet high that was discovered in British Guiana.

FROM LEAF TO PACKAGE the manufacture of cigarettes requires about nine days, says a government report. But it took five years before that it made all the tobacco mixed in there.

One on the Indians!

The Indians had their pipe-made of clay or stone and some contain as much as an acre of good loamy land. But they were PILES right on, and they drew good manure. Not only that, but the Indians rolled their own cigarettes. Moreover, the Indians had their stogy cigars. Home-made, all of them. But they were the originals of all that we have. There's nothing new... Fertilizer? The Indians had that too, of a sort—fish, right out of the creek, buried beside the plant. But it wasn't V-C. Ho-hum! ... FULL ROWS! Ah, there you've got it on the redskin!

"V-C FERTILIZERS have given us quality crops and greater yields. This year with boll weevil infestation the worst ever known around here, we averaged nearly a bale to the acre."—Coats Mercantile Co., Coats, N. C.

COTTON CHAMPION

Fertilized his winning crop with Chilean Nitrate of Soda

INVARIABLY when the state cotton champion is named by the authorities, he proves a liberal user of Chilean Nitrate of Soda. Do you think this "just happens" every year? There is no "just happens" about it. He makes his record crop because he uses this wonderful nitrogen fertilizer. History proves it... 1923... 27... 26... '25... year after year Chilean Nitrate wins!

J. Wilson Alexander Huntersville, N. C.

Is declared Cotton Champion of the state by N. C. College of Agriculture through its Extension Division. Yield, 4082 lbs. lint cotton on 5 acres. Average \$16 lbs. lint cotton per acre. Cotton was 1 1/4" staple and sold on Dec. 20th for 27c per lb. Here is his fertilizer treatment: 100 lbs. Chilean Nitrate per acre, 600 lbs. acid phosphate, 50 lbs. muriate of potash at planting. Then 200 lbs. Chilean Nitrate per acre as side dressing. Profit per acre was \$177.35, figuring all cost items.

Chilean Nitrate is the natural nitrogen fertilizer not synthetic or artificial. It is the good old "Soda" that 800,000 farmers used last year. Put it under your cotton. Then side dress with it... and make some real money this year.

If you don't know how or where to buy Chilean Nitrate, inquiry at the address below will receive prompt attention.

Get This Free Book "How to Use Chilean Nitrate of Soda" contains 44 pages of helpful information. It is free. Ask for Book No. 1 or tear out this ad and mail it with your name and address written on the margin.
