

### THREE MARTIN COUNTY PLAYERS ON ALL-LEAGUE TEAM SELECTED BY SCORER FOR BERTIE COUNTY

#### Jimmie Brown, Whitehurst and Dick Cherry Chosen For Mythical Team

(Hertford County Herald)

Aulander, July 16.—Taking in consideration the playing in the first half of the Bright Leaf Belt League, P. B. Pollock, official scorer for Bertie County, and who has seen every player of the league in action, selects the following players for the mythical all-league team:

First base: Outen Gerock, of Hertford County; second base, Vance Forehand, of Bertie County; shortstop, Jimmie Brown, of Martin County; third base, Douglas White, of Bertie County; catcher, Chester Rogerson, of Bertie County; left field, Dwight Castelleo, of Bertie County; center field, Jack Johnson, of Bertie County; right field, Whitehurst, of Martin County; pitchers, 1, Dick Cherry, Martin County; 2, John Mizelle, of Bertie County; 3, Sherman Hoggard, of Bertie County; 4, Ben Hoggard, of Bertie County; and 5, Claxton Rogerson, of Bertie County.

The first basemen, Hood, of Martin; Latham, of Beaufort; and Baker, of Bertie, are all good fielders and fair hitters, but Outen Gerock, of Hertford, gets the call at first because he is a more steady player and a fair hitter. Besides hitting 731, Vance Forehand, of Bertie, has played his position at second well, and he is easily the choice for the position. Jimmie Brown is a heavy hitter and a fast man on short, and he is easily the choice there. Roebuck, of Martin; Bradley, of Hertford; Waters, of Beaufort; and Miller, of Bertie, all regular third basemen, are good, at the hot corner, but the writer thinks to shift Douglas White, of Bertie, from short to third would not weaken the all-league team in fielding, and it certainly would strengthen it in hitting. Chester Rogerson, of Bertie, is easily the best catcher in the league, although Sessoms, of Hertford, handles himself well behind the bat and is a fair hitter. The outfield positions go to Jack Johnson, of Bertie; Dwight Castelleo, of Bertie; and Whitehurst, of Martin. All three are heavy hitters and fast outfield men. Other good outfielders in the league are: Jesse Lee Coffield, of Bertie; Tomko, of Hertford; Litchfield of Beaufort; and Gaylord, of Martin.

Five pitchers are chosen and no utility men. All five of the pitchers chosen are good infielders and outfielders. Dick Cherry, of Martin, is

the first choice for mound duty. John Mizelle, of Bertie, who has shaded Cherry in one of the three games they have faced each other, gets the second call. Sherman Hoggard, of Bertie, gets the third call; Ben Hoggard, of Bertie, the fourth; and Claxton Rogerson, of Bertie, the fifth. Only one catcher was named because Jimmie Brown, besides playing the shortstop position, would also be a credit to the team behind the bat. Besides his hitting and fielding ability, Douglas White who is on third on this team, can take his turn on the mound effectively.

The writer has taken into consideration the playing in the first half of the league. He took into consideration fielding, hitting, and the all-round service the player could be to the team. Players not named might be capable of doing much better than some on the team, but they haven't yet struck their stride. Perhaps they will land a place on the all-league team at the end of the second half.

Vance Forehand would captain the all-league team well, and Jack Johnson would be a capable field manager.

### RAINS HELP TO BOLL WEEVILS

#### Wet July and August Means Heavy Infestation Says Insect Specialist

Rain in July and August means ideal conditions for the rapid development of boll weevil infestation in cotton. Indications are now that damage will be exceedingly heavy.

"Activities of the weevil are largely dependent on weather conditions and though no one can forecast the weather very far in advance, it looks as if we shall have a heavy infestation this summer," says C. H. Brannon, insect specialist at State College. "For this reason cotton growers should not wait until the last minute to make their plans for boll weevil control. This work is now long past the experimental or research stage. We know that dusting with calcium arsenate will control the pest but we also know that this dusting must be done exactly right. If not done correctly dusting has no value."

Mr. Brannon says that more weevils survived the winter than in several seasons. This means that the pest has a good start but does not mean necessarily, that this alone will cause heavy infestation in July and August. "The weather will decide this. If it is hot and dry, the weevil will not do much damage. If it is wet and sultry, the weevil will propagate in enormous numbers and will ruin the cotton unless protected with calcium arsenate."

Boll weevil control is now a regular part of the cropping system and should be so considered in the expense of raising cotton. Poison machines are necessary farming implements, just as the plow or cultivator. Hundreds of dollars have been lost in this State by improper methods of poisoning and the wise growers will plan to do the work as it should be done.

Should any one desire detailed information about how to poison the weevil, Mr. Brannon will be glad to answer any inquiries addressed to him.

#### Five Killed in Accidents Over Week End in State

Charlotte, July 22.—Rainy weather combined with the usual heavy Sunday automobile traffic yesterday to cause numerous accidents on North Carolina highways. Five persons, four of them negroes, were killed and a score injured.

Mrs. Clarence Johnson, wife of a Cabarrus county farmer, was killed in the head-on collision of the Johnson car with that of Mumford Ritchie, Jr., 18 of Concord, on the Concord-Davidson highway. Miss Mary Johnson, 20; George Hipp, 7, and Lois Hipp, 10, were injured but are expected to recover. All were riding in the Johnson car.

Ritchie and members of his party escaped injury. Ritchie was arrested but was later released on bond.

Four Durham negroes were killed at Bynum. All were passengers in the care of George Staley, negro, who drove his machine into the side of the Hawriver bridge. Four other negroes were injured in the wreck Staley was held without bond pending investigation of the accident.

#### CHEESE PLANT PAYS FARMERS

#### Started Last Summer, Plant Has Had Remarkable Growth

When Dairy Specialist Farnham and County Agent Turner cleaned out an old garage in West Jefferson, Ashe County, last summer and invited farmers to bring in their milk to be made into cheese, some folks thought the two young men were suffering from a mild form of brainstorm.

"But," protested the two misguided men, "The Kraft Cheese Company say they will take over the plant when we can guarantee 6,000 pounds of milk a day."

"Sorry, boys, but there isn't that much milk in all this section," said some of the knowing ones.

Mr. Farnham and Mr. Turner had a meeting of some leading farmers who constituted themselves into a committee in charge and after suitable preparations were made, the improvised cheese factory began operation. On the opening day, only 1,100 pounds of milk were received but in less than a month the guarantee of 6,000 pounds a day had been passed and the Kraft company had taken over the plant.

Increased production has made it necessary to move into more commodious quarters once and last week it was announced that the factory was receiving over 25,000 pounds of milk each day. Last week it was also announced that the Kraft company would build a factory valued at \$100,000 to manufacture cheese and condense milk and whey. Two units will be constructed. One to handle cheese and powdered whey and the other to handle sweet cream and powdered skim milk.

The farmers of that section are seeding pastures and buying dairy cows. They now have an assured market for all the milk they can produce and substations for collecting additional milk will be added in outlying sections.

Thus through faithful efforts, the dairy industry of North Carolina gets another substantial boost. And this is only the beginning.

Scotland County farmers are having a hard time finding seed with which to plant their stubble lands.

#### WEAK AND THIN

#### Virginia Lady Was Just Dragged Around. Health Improved Steadily After She Took Cardui.

Bristol, Va.—"I was just about down in bed and so weak I was past going," writes Mrs. Jennie Goodman, of 718 Portsmouth Avenue, this city. Mrs. Goodman says her family was very uneasy about her condition, as she seemed so weak and thin.

"I ached all over," she explains, "and my back and sides hurt most of the time."

"I dragged around, and did not see a day of good health."

"I went to call on one of my neighbors, and she remarked about my looking so bad. She told me to get a bottle of Cardui and take it. Next Saturday night, my husband brought it home to me."

"Before I had taken Cardui a week, I was feeling much better. I continued taking it for awhile, as my health kept on improving."

"I gained in weight, and soon was feeling like a new person. Since then I have taken Cardui several times, and it has always done me good. I can recommend it to others."

Cardui has been in use so long that its merit has been proved by the experience of several generations of women.

### SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon us in a deed of trust executed by L. J. Davenport and wife, Cassie M. Davenport, on the 4th day of June, 1923, and recorded in book O-2, page 487, we will on Saturday, the 24th day of August, 1929, at 12 o'clock noon, at the courthouse door in Williamston, N. C., Martin County, sell at public auction for cash to the highest bidder the following land, to-wit:

All that certain tract, piece, or parcel of land, containing 123 acres, more or less, situate, lying and being on the Hamilton and Oak City Road about one-half mile east of the town of Oak City, Goose Nest Township, Martin County, North Carolina, having such shape, metes, courses, and distances as will more fully appear by reference to a map made by J. M. Mobley, surveyor, on the 16th day of May, 1923, and adjoining the lands of J. T. Daniel on the north and west; the lands of L. T. Chesson on the east; and the lands of N. M. Worsley on the south and more particularly described as follows:

Beginning at a stake in the Hamilton and Oak City road, corner of N. M. Worsley and J. T. Daniel; thence with the line of J. T. Daniel north 38 1-2° E. 81 1-2 poles to a stake, and north 5 1-4° E. 118 1-3 poles to a stake; thence with the line of J. T.
