Let him check your oil

FULL BODY

CLEAN-CLEAR-PURE

The Texaco Service man has good reason to ask "Do you need oil?" Many times car owners get careless about the oil in their crankcase—allow it to fall below the danger mark. Let him lift up the hood of your car and check your oil. It takes but a second to make sure.

If you don't need oil he'll tell you so frankly. If you do, he will give you fresh Texaco Golden Motor Oil—clean, clear, pure—a full-bodied oil super-refined from selected crudes.

*Stop where you see the Texaco Red Star with the Green T today.
It will pay to have your oil checked regularly.*
