Civil Service Commission Is Receiving Applications for Positions

Washington, D. C., Oct. 8.—The United States Civil Service Commission has announced that it will receive applications until November 2, 1929, for certain temporary positions in the Bureau of the Census in Washington, D. C., in connection with the fifteenth decennial census.

The positions for which examinations are to be held are junior clerk, junior calculating machine operator, and junior tabulating machine operator, with an entrance salary of \$1,440 a year, and under card-punch operator with an entrance salary of \$1,260 a year.

These examinations are open to all citizens of the United States, both men and women, who meet the requirements.

It is expected that a large number of appointments will be made. The

TEARS ARM OF MAN OFF

Cumberland County Man Victim of Unusual Accident

Fayetteville, Oct. 11.—J. M. Wallace, a young man of Cumberland county reported to police headquarters late last night that he had passed a man lying on a highway about two miles south of the city, whom he believed to be drunk, or dead.

After making his report the young man started to re-enter his automobile when he noticed the arm of a man wedged between the front axle and radiator of his automobile. Officers hurried to the point of the road where Wallace had seen the man and found Willie West, cotton mill worker, lying in the road, minus his left arm. He recognized Chief of Police Jones and told him that he was merely drunk and asked not to be locked up. He did not know that his left arm had been snatched off. He was resting well today in a local hospital.

It is presumed that West who is about 50 years of age, raised his arm to shield his eyes from the glare of the headlights of Wallace's car as it passed over him. A bottle containing a small amount of bay rum was found in West's pocket.

length of service will probably range from one to two years in most cases, but in no case will it extend beyond December 1, 1932.

Full information regarding these examinations can be obtained from the United States Civil Service Commission Washington, D. C., or from the secretary of the United States Civil Service Board at the post office or courthouse in any city.

Mother Is Ninety-Seven And Daughter is Eighty

Jefferson, Oct. 14.—Mrs. Nancy Brown, who resides with her daughter well-organized. It would have probably had the distinction of being the mother of the oldest daughter in all this section. Mrs. Brown is 97 years old and her daughter, Mrs. Martha C. Tilley, of Todd, is 80 years old.

Mrs. Brown celebrated her 97th birthday last month. She is the widow of a Confederate soldier, John Brown, who fought with the 58th North Carolina regiment.

An account of the birthday dinner given the aged lady on her recent birthday stated that she has nine children, 75 grandchildren, 125 great-grandchildren and 20 great-great-grandchildren, a total of 229 descendants.

WHY COOK THE ELECTRIC WAY FOR A FEW CENTS A DAY?

ONLY women who have actually used an electric range can know what pleasure it is to cook with this clean, strong even heat; how much better and more consistent the results are; how much more uniform.

Results once obtained on an electric range can always be duplicated. It is clean. There are no obnoxious fumes—no flame—no soot—no matches—no litter—no blackened pots or pans to scour.

The accurate control and uniform results obtainable on an electric range, plus the small shrinkage of the food, means a great savings in food.

The automatic features of electric ranges enable you to enjoy many hours of freedom from your kitchen. The cooking can be started and stopped by the electric clock—while you are miles away—and the meal will be ready to serve when you arrive.
