These are the Oakland features which make driving a real delight

Foremost among the many convenience features offered by the Oakland All-American Six is the Cross-flow radiator. The Cross-flow radiator practically eliminates losses of water and alcohol through boiling. Only Oakland in the entire medium-priced field employs the Cross-flow radiator. Foot-controlled headlights represent another great convenience. Only Oakland and one other medium-priced car offer this feature. And it is such features as these, combined with Oakland's impressive performance, distinctive style and exceptionally long life, which make Oakland ownership an uninterrupted experience in motoring enjoyment.
