Use Life Insurance to Protect Against the Mortgage

At least, make sure that they... your wife and children... will have a home... for shelter is the biggest problem widows and children face.

A mortgage is a debt and every mortgaged home is a temporary home until the debt has been met.

A mortgage is an obligation which, in the event of your death, your wife is forced to assume.

The holder of the mortgage requires that you protect his investment with fire insurance. Is your wife not entitled to the same degree of protection against the event of your death?

If a man can afford an equity in a home, he owes it to every one concerned to protect the value of that equity with Life Insurance.

A mortgage is a business proposition. Business is not sympathy or charity. If there is mortgage insurance, neither sympathy nor charity is needed.
