first money for other things and ignore our taxes and try to pay them with out last pennies.

Yet, we boast of our loyalty to our country and proclaim our love for God. We would serve God with the most worthless days of our lives and sustain our country with the money left over. It would be easier for us if we would place first things first.

The Auto Continues To Take Its Toll

Sunday was another big day for automobile destruction. The twenty-six million automobiles filled many of the one million hospital beds in the county with cripples. The undertaking shops received a number of victims and the garages were crowded with broken glass and twisted steel. A number of the drivers are in jail, but it is doubted if the number confined is large enough.

Fast machines and fast life are responsible for quite a number of these wrecks. In some cases poor judgment or thoughtlessness resulted in a wreck.

Just so long as so many people travel so fast, we will have accidents. But the public is responsible for half the troubles because we excuse instead of punish.

More Truth Needed In Politics

Is it safe to go to the professional politician or to his close friend for guidance in voting?

The Bible tells us that the love of money is the root of all evil. Doubtless that was written before officers were elected by the people, or it might have been worded a little differently if it is not dishonorable to seek office, and generally office seekers are good men. The trouble is that there is at times an unworthy office-seeker trying to destroy the worthy opponent. And then there is a low undercurrent which too often tries to tear down and destroy the character of good men.

More truth is what we need in politics. It is too often the case that we find those who have to depend upon others for information and never learn the true facts. There are too many fellows going through the land canvassing as paid agents, spreading news that will not stand light. In many such cases, these fellows hold office or have the promise of office or other political favors.

Doctors Disagree
When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought-up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old fashioned remedy, which you can get at 35c per bottle from

Taxes and Religion

Taxes and religion are two things we usually put off until the last minute, and to do so generally causes us trouble and anxiety. A program of procrastination naturally leads to failure.

When a man is young and strong, he naturally expects many bright days of joy and pleasure. He considers religion as nothing except insurance against torment when life is ended. He fails to understand that religion is a man's best working equipment all through life.

Taxes are charged against men to maintain government and insure justice, but like religion to which we wish to devote our few last weak days, we spend our
