India and England

One hundred and fifty years ago, the United States, then the 13 Colonies, were fighting to free themselves of British rule. Today, India, with 300,000,000 is attempting to do the same thing, because they feel as if they are not getting fair treatment at the hands of the British. Unfortunately for India, its people are ignorant and would perhaps be worse off free than in slavery. The situation advances the cause of education in that the educated generally always rule.

India is, of course, paying some tribute to England, but her great burden and the one that keeps her in bondage is ignorance.

If India should be freed today, she would not be able to set up her own government and protect herself from troubles originating from within and from without.

If England will establish a fair educational system for India then some day India will be one of the great nations. But can England do that? The desire for freedom and power develops so rapidly that a revolu-

tion would begin as soon as general education was introduced.

It is good for America that we have a universal free school system.

Ethics in the Professions

Is there too many ethics in the professions? is a question propounded by many at this time.

For many years, doctors and lawyers have established such high ethical codes that they refuse to do any advertising whatever. A commendable virtue it is, if they had a perfectly honest constituency and they themselves, would all honestly uphold their own ethics.

They refuse to use advertising space while the patent medicine man, the fake cancer cure, hernia healer and every other of doubtful character gather many millions every year by advertising.

The local doctor owes it to his community to give honest service. He has fitted himself, at great expense, to guard the health of his constituency. If they were all highly intelligent, they could look out for themselves, but the ignorant sufferer follows the advertiser, whether his practice be good or bad. It is not to be construed that there are not many good ones. But if the doctor of the community has the ability to guard his friends against deception, why isn't it proper for him to tell them about it.

If the doctors of the United States would come together and advertise against fraudulent advertisers as diligently as the fakes advertise their medicines, they would save many lives and millions of dollars.

The lawyer is generally delighted to have his achievements exploited by the public press, yet he refuses to tell the public to beware of crooks and fakes.

We can see no reason why doctors and lawyers can't legitimately advertise.

Tough Sledding for London Treaty

The proposed London Treaty will now have to swim through the world's greatest political whirlpool, the United States Senate, the place where it is hard to pass anything that tends to give everybody a fair deal without some hitch. Although the treaty will be supported by many Senators, there'll be numbers who will view the proposal from a purely commercial standpoint. It is strange that we are always willing to treat others fairly until we get to trading with them and then we generally become greedy and want the best end of the trade.

Card of Thanks

We wish to thank our many kind white and colored friends for their sympathy and aid during the illness and in the bereavement of our dearest friend, "mother," Mrs. Millie Respess CHILDREN.

NOTICE OF ADMINISTRATION

Having qualified as administratrix of the estate of R. D. Lilley, deceased, late of Martin County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Hamilton, North Carolina, on or before the 16th day of May, 1931, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

Pavements That Fit the Traffic

YOUR city engineering department can design portland cement concrete pavements to fit the traffic requirements. If the loads are heavy, there are available designs that have been tested and proved by experience to be adequate. If the loads are light, experience again is available to guide the choice of a design.

In either case, the concrete surface can be finished to produce a pavement of the highest riding qualities. When so built, it retains this perfection of surface indefinitely.

The basis of leadership

Don't look for premiums or coupons, as the cost of the tobaccos blended in CAMEL Cigarettes prohibits the use of them.

MANUFACTURED BY R.J. REYNOLDS TOBACCO CO. WINSTON-SALEM, N.C.

READ again the familiar message on the back of the Camel package. . . Camel, introduced in 1913, when other cigarette brands were offering all sorts of premiums and similar inducements, jumped into leadership solely on the basis of its built-in goodness. That statement, spread throughout the world each day on millions upon millions of Camel packages, stands as your guarantee of the maximum in smoke pleasure. It reaffirms on every package of Camels the steadfast aim to give smokers a cigarette in which every possible bit of the cost is put into real smoke-quality. The delightful, natural fragrance of Camel's choicer tobaccos; combined in the smooth, mellow harmony of a blend beyond imitation—that's what made Camel the world's foremost cigarette—and keeps it just that.

Don't deny yourself the luxury of
