**The Tariff Bill's Ultimate Results**

What will the new billion dollar tariff bill do? First, we may reasonably expect a short-lived boom. The beneficiaries are likely to loosen up their cash long enough to get the common people in a trading mood. Unless there is some business stimulation, the reapers cannot expect large profits from their increased production. For that reason they know they will have to keep enough blood in the business life to sustain trade. A tariff on shoes does the shoemaker no good if people are unable to buy shoes, and the same thing applies to every class of goods in the entire schedule coming under the increased rate.

The final result will be entirely different, however, for the trade will be loaded down with so much tariff tax that it will rapidly grow poorer day by day and the last days will offset the gains recorded in the first. The ultimate result will be that the mass of people will pay about one billion dollars each year into the pockets of a few manufacturers.

**Good Democrats**

The question of a man's Democracy is only raised upon his vote in elections. After then he may vote for the most radical things and still be classed as regular.

The vote last Friday on the new tariff bill revealed five Southern Democrats pulling and voting with the most undesirable element of the Republican Party, measured by the Southern standard of Democracy.

Florida furnished two and Louisiana two. Had these men stood square to the platform of their party, they would have saved each family in this country a tariff tax of about \$40.00 a year.

Yet, they are called good Democrats.

**State Control of Prisoners**

New business-theories are being advanced daily, and as much as those theories affect economic conditions, very few objections are entered. We just stand off and view the operations. But now comes a suggestion for the State control of all prisoners—a suggestion that is being made in the face of unfavorable reports coming from many of the State prisons throughout the country.

It is possible that a few prisoners in various counties do not receive proper treatment. Judging from various prison reports, if the State undertakes to control all prisoners and in so doing makes as big a mess of it as it is doing in handling its own prisoners, costs will command a higher position than ever.

The State loses about as much on each of its prisoners who works for a living in the quarries or farm as the county that cares for its prisoners without even attempting to work them. It is doubtful if a prison board in Raleigh can handle the Martin County prisoners better than the county is handling them at the present time, and the county is merely keeping them confined.

If the State board is the boss and sends a man once or twice a year to investigate the conditions, the prisoners would, in a very short time, lose respect for the jailer and disputes his right to govern. This is one of the principal causes for many of the great troubles resulting in many states of the Union in the past. If the State takes over the management of all prisoners, it will simply mean taking the government out of the hands of the local people and centralizing it just as the school system is now centralized.

The legislature has passed laws, from time to time, governing the violations of matters of public policy and has prescribed the manner in which the violators are to be handled. If the legislators have failed to safeguard the rights of prisoners in obtaining humane treatment, then the law makers can pass other laws forcing all persons entrusted with the care of prisoners to properly handle them.

**B. A. CRITCHER,**  
 Commissioners.

**DANGER HEADED OFF**  
 Constipation Troubles Soon Go Away Following Use of Black-Draught.

Strike, Texas—Mrs. Orea Crawford of this place, tells of her use of Theodor's Black-Draught which she says covers a period of "a good many years."

"We use Black-Draught as a regular family medicine for constipation, and I try always to keep it in the house."

"I have found it a reliable medicine to give the children when they get upset from over-eating, or have colds, for after taking Black-Draught they get all right in a little while."

"I use Black-Draught for bilious, sick headache. I have found that a dose or two, taken at night, will give quick relief for constipation and the complications which follow when that condition runs on."

"A bad taste in the mouth in the morning, dizziness and a dull headache, all leave quickly after a few doses of Black-Draught. I find it is not safe to let such things run on. I try to head off the danger by taking Black-Draught in time. It is a dependable medicine."

At the first sign of constipation, take Theodor's Black-Draught. This purely vegetable medicine has been in use nearly 100 years. Sold everywhere. Try it. NC-222

 Trustee.  
 Wheeler Martin, attorney.

**Nature Thought of Everything**

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35c a bottle, and can be bought from
