**A Great Discovery**  
 When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borosone, the modern antiseptic. You can get Liquid Borosone, in a size to fit your needs and purse, from Clark's Drug Store.

erly direction along J. H. Davenport's corner to an iron post in Beasley Branch, J. H. Davenport's southeast corner; thence along the run of Beasley Branch to a stake and cyprus, C. L. Simpson's corner; thence in a northerly direction, along C. L. Simpson's corner to an iron axle, the beginning, containing 117 acres of land as will be shown by map made by Sylvester Peel on the 8th day of November, 1918, said map being of record in the Public Registry of Martin County.

The terms of sale are as follows: One-fifth cash and remainder payable in six equal annual installments with 6 per cent interest.  
 All bids will be received subject to rejection or confirmation by the Clerk of said Superior Court and no bid will be accepted or reported unless its maker shall deposit with said Clerk at the close of the bidding the sum of Five Hundred (\$500.00) Dollars, as a forfeit and guaranty of compliance with

his bid, the same to be credited on his bid when accepted.  
 Notice is now given that said lands will be resold at the same place, and upon the same terms at 2 o'clock P. M. of the same day unless said deposit is sooner made.  
 Every deposit not forfeited or accepted will be promptly returned to the maker.  
 This the 16th day of June, 1930.
