

WARDENS MAKE GOOD SHOWING IN PAST SEASON

District Forester Carter Issues Report About Fire Protection Here

District Forester L. A. Carter, of Windsor, states that while the forest wardens in his district had one of the worst fire seasons known to combat, that practically all of them did excellent work and in most cases made better records this year than last, and have saved their respective counties thousands of dollars in forest land valuations that might have been destroyed had they not been protected.

Four hundred and forty-five fires, largely due to carelessness, during the year ending June 30, burned over an area of 20,484 acres of forest land in the 8 cooperating counties with the Department of Conservation and Development in forest fire protection in the northeastern part of the State and caused a loss estimated at \$42,302.00.

The extremely long, dry spring fire season that covered the entire six months of 1930, together with the mistaken notion held in some sections that woods burning would control boll weevils, was responsible for much of the increase in the number of fires.

Compilation of fire reports show 136 fires due to brush burning, 16 to hunters or fishermen, 23 to railroads, 10 to lumbering, 68 to incendiarism, 85 to smokes, 43 to miscellaneous causes, and 53 of unknown origin.

The number of fires by counties and the areas burned are: Bertie, 106 fires, 3,655 acres; Chowan, 20 fires, 278 acres; Edgecombe, 61 fires, 1,155 acres; Halifax, 91 fires, 3,136 acres; Hertford, 26 fires, 630 acres; Northampton, 48 fires, 1,057 acres; Warren, 61 fires, 2,039 acres; Washington, 30 fires, 7,725 acres; Camp Protective Area, Gates County, 2 fires, 410 acres. Martin does not have a warden and is not included in the report.

The wardens' activity record shows that during the year the forest wardens collected fire fighting costs from 76 responsible parties amounting to \$524.75; conducted 12 prosecutions for violations of the forest fire laws, winning 8 cases, losing 2, while 2 cases were appealed and have not been settled. Fire prevention work included visiting 398 schools, inspecting 91 saw mills, posting 2,141 fire warning notices and interviewing 13,780 people. In addition to the above, 106 motion picture showings were made with a total attendance of 10,364 adults and 15,331 children.

ARRANGE PROGRAM FOR FARMERS' MEET

Will Be Held at State College in Raleigh Next Week; Special Features Planned

The program of the 28th annual session of the North Carolina Farmers' and Farm Women's Convention to be held at State College next week, July 28 to August 1, has been completed in final form and assures visitors to the farm and home week exercises one of the most interesting meetings of recent years, announces I. O. Seab, general secretary of the convention.

In addition to being a great gathering of rural people, the convention this year will witness the annual meeting of the North Carolina Crop Improvement Association, the North Carolina Federation of Home Demonstration Clubs, the North Carolina Cooperative Cotton Association, and the North Carolina State Beekeepers Association.

The Fort Bragg band has been secured as a special musical treat. All lectures during the morning hours will be repeated so that visitors may have an opportunity to take more than one course of instruction. There will be several contests as in past years and time is allowed for visits to points of interest about over Raleigh.

ment made by Manager Walker this week.

The old White's theatre has been changed into the beautiful State Theatre, and presents a pleasing harmony of color and atmosphere. New projection equipment and Western Electric sound apparatus have been installed assuring the maximum efficiency results.

"Anybody's War" features the opening next Monday afternoon.

MASONIC PICNIC IS DATED FOR NEXT THURSDAY, JULY 31ST; JUDGE WINSTON WILL SPEAK

Coleraine Beach Will Be Scene of Gala Day and Homecoming As Large Crowds Gather From Far and Near For Annual Event

There will be crowds from far and near next Thursday at Coleraine Beach, when the 26th annual Masonic picnic gets underway. For years past this event has been one that is looked forward to by folks from Bertie, Hertford, Northampton and other counties of this section.

Friends will meet friends there, children and grown-ups will enjoy the cooling waters of Chowan river; there will be plenty of the famed Chowan melons for all; iced drinks, ice cream, plenty of refreshments of every kind will be available and everybody expects to enjoy a day down in the cool breezes that blow from up and down Albemarle.

Judge Francis D. Winston will be the speaker of the day. The picnic association comprises seventeen lodges from seven counties. People will be there from all seven counties, and if the crowds of past years are to be taken as an indication of this year, folks will be on hand from many more.

The general public is invited. A. O. Kiff, president of the picnic association, has issued advertising matter inviting the people to "come, bring the children, and enjoy the day." Proceeds from all the concessions operating at the beach that day will benefit the Masonic orphanage at Oxford.

GETS GOOD YIELD FROM TOMATOES

John C. Bell Has Already Shipped 967 Baskets to Plymouth Cannery; Instruct As To Handling

John C. Bell reports that his tomato crop is yielding favorably and that he has already shipped 967 baskets in the last two weeks to the cannery at Plymouth. Representatives from the cannery came over last week to show Mr. Bell and other growers the best methods of handling the tomatoes.

The cost of growing tomatoes is not large, compared to some other crops. People in the county are watching with considerable interest the efforts of growers here and there to begin raising tomatoes on a commercial scale. If as many as 400 acres are planted next season, so that the proposed cannery for Windsor can be assured of plenty of tomatoes, it is likely that the concern will locate such a plant here.—Bertie News-Leader.

FINANCES OF EDENTON REPORTED IN GOOD SHAPE

For the first time in a number of years, there is no deficit in Edenton's town funds. A recent audit conducted showed that the town was in excellent financial condition.

The total receipts during the past fiscal year were \$33,455, while expenditures totaled \$32,745, leaving a balance of \$745. Various accounts paid during the year included interest of \$8,135 on new paying bonds and notes to the amount of \$11,816.

The town is reducing its bonded debt at the rate of \$14,950 annually.

Careful administration of the city's finances by citizens who give their services for only a nominal sum, is attributed to be largely responsible for the healthy financial condition the town is in.

AUTOBIOGRAPHY OF JUDGE ASA BIGGS

(Continued from page one)

without appealing to passion, firmly but temperately arguing principles and I was triumphantly sustained by the people—obtaining a handsome majority over both of my opponents. Cooper receiving but 25 votes. By this I was transferred to a new theatre and the Session of the General Assembly was stormy and excited, the parties being equally divided in the Senate, and the responsibility of taking a prominent position in the debates and proceedings being thrown upon me! but here as elsewhere I endeavored to discharge my duty with fidelity to the party I espoused, and the great principles of administration in which I believed the good of the country was involved. This public service gave me considerable prominence in the State and the approbation of my fellow citizens was sufficient to gratify any reasonable ambition and although it interfered to some extent with my domestic affairs and somewhat with my professional duties, I very cheerfully made the sacrifice, as a duty I owed to my family and my country. There followed however a period to "try" me thoroughly.

(The next installment has to do with Judge Biggs in the United States Congress, the interest becoming more acute as the narrative progresses).

NEURITIS

The famous Q-623—Guaranteed relief for Rheumatism, Neuritis, Arthritis, Sciatica, Lumbago—is now available to all sufferers from these tortures.

Q-623 is a prescription of a famous specialist that has done wonders for thousands of people when many other remedies have failed. We ask you to try this famous prescription, as it is absolutely guaranteed to help you. A few doses usually stops the pain and many people say "it is worth its weight in gold."

These reliable merchants recommend it:

Clark's Drug Store, Williamston.
S. R. Biggs Drug Co., Williamston.
Barnhill Brothers, Everetts.
A. B. Rogerson & Bro., Bear Grass.
Clark's Drug Store.—adv.

FOR RENT: MODERN BUNGALOW with all conveniences. See J. Eason Lilley, jy-4t-pd

WANTED AT ONCE, FIVE OR SIX ROOM BUNGALOW. Apply to this office.

TOBACCO STICKS FOR SALE—I am offering 10 or 15 thousand tobacco sticks for sale at \$5 per thousand. Cheap as you can—make them. Come and get what you need while they last. Luther Hardison, Jamesville, N. C. jy-25-2t

This Woman In 4 Weeks Lost 19 Pounds of Fat

Here's a letter written October 21, by Mrs. Fred Barringer, of Lewistown, Montana, that ought to be read by every overweight woman in America:

"Gentlemen: I first saw your advertisement in a Billings, Montana, paper and decided to try Kruschen Salts.

I started taking them every morning as directed, as I was very much overweight and wanted to reduce.

I had tried going on a diet, but would get so hungry that my diet would not last long, so I decided to give "Kruschen Salts" a fair trial. The day I started to take them I weighed 256 lbs. and at present, which has been just four weeks, I weigh 239 lbs. And I must say, I feel better in every way, besides looking much better. Kruschen Salts had a decided effect upon the quantity of food I took and stimulated my desire to greater activity.

I have recommended Kruschen Salts to many of my friends; in fact, have a number of them taking Kruschen Salts.

May all large people, both men and women, who want to reduce in an easy way, give Kruschen Salts a fair trial. I am sure it will convince any one."

A bottle of Kruschen Salts that lasts four weeks costs but 85 cents at Clarke's Drug Store or any drug store in America.—adv.

Miles of Conveyors in Ford Plant

This picture shows two types of conveyors in use in the Rouge Plant of the Ford Motor Company.

AN ENDLESS chain conveyor, three and a half to four miles long, said to be the longest in the world, has just been completed at the Rouge Plant of the Ford Motor Company at Dearborn, Michigan. On it parts of Ford cars in the process of manufacture are transported from one building to another and completed parts are carried direct to railroad cars for shipment to branch assembly plants.

The conveyor, which carries its cargo on suspended hooks, has a daily capacity for 800,000 parts weighing over 2,000,000 pounds. It supplants freight cars and trucks which have been used for the transfer of many parts from one point to another in the Ford plant.

This longest conveyor of them all is a development of the Ford policy that nothing should be done by manual labor that could better be done by machine.

In the early days of his manufacturing career, Mr. Ford devised the assembly line—a moving track on which cars in the process of assembly went to the workmen instead of the workmen carrying parts to the car. The assembly line, perfected in many ways, is now used by automobile manufacturers generally.

The value of the conveyor in reducing physical labor, in saving time, in preserving system and in cutting costs soon became apparent and its use was extended to other purposes about the plant. Now there are literally miles of conveyors of various types in the Ford plant. Some of them carry parts from one building to another and are carefully synchronized so that the parts arrive at precisely the right moment and in the exact spot where they are needed. Others transport red hot in gots of steel weighing nearly a ton each. Still others move outgoing shipments.

If it were not for the conveyors, according to officials of the Ford Company, mass production would not be possible on its present scale.
