

FEDERATION OF CLUBS IN MEET

(Continued from Page One)

showed that in spite of the general depression there had been no slackening in the pace set in better times.

Miss Fieda Hellar, organizer of the State Library Commission, made a very interesting talk, emphasizing the need of organizing libraries.

The work as outlined by Mrs. Land was endorsed by the district and Mrs. Ford worthy, of Washington, was elected to the office of first vice president of the district.

The invitation of Washington was accepted and the meeting adjourned to meet the coming year in that town.

Presbyterians Announce Several County Services

Sunday November 2nd 1930 "The Church With an Open Door."

True Saying: "Tis only Jesus that can give Sweetest pleasures while we live— Only Jesus Can supply Solid comfort when we die."

Church School 9:45 A. M. Departmental Classes, Separate Class Rooms.

Worship Service and Sermon: 11 A. M. Subject: "Christian in the hands of Giant Despair."

It very often happens that even a christian is at times found walking in the grounds of Doubting Castle and sometimes falls into the hands of Giant Despair.

A warm welcome awaits you at the Church with an Open Door.

Leggett's Farm Sunday School 3:30 P. M.

During the past week a series of evangelistic services have been held at this point—These services will continue through tonight, and perhaps tomorrow night—You are cordially invited to attend these services which begin at 7:15 P. M.

Farm Life The usual Presbyterian Service will be held in the school-house auditorium at Farm Life beginning at 3 P. M. Sunday. Come and meet with us.

Bear Grass Services begins here at 7 P. M. each Sunday Night. A service of Song, Story Telling, study, and Gospel Messages await all who come. Have you been coming?

Mr. R. F. Pope advises that it will be impossible for him to conduct the singing class this Sunday afternoon at 2:30 p. m.

666 Relieves a Headache or Neuralgia in 30 minutes, checks a Cold the first day and checks Malaria in three days. 666 also in Tablets

Ford Digs Two Mile Tunnel for A Billion Gallons of Water a Day

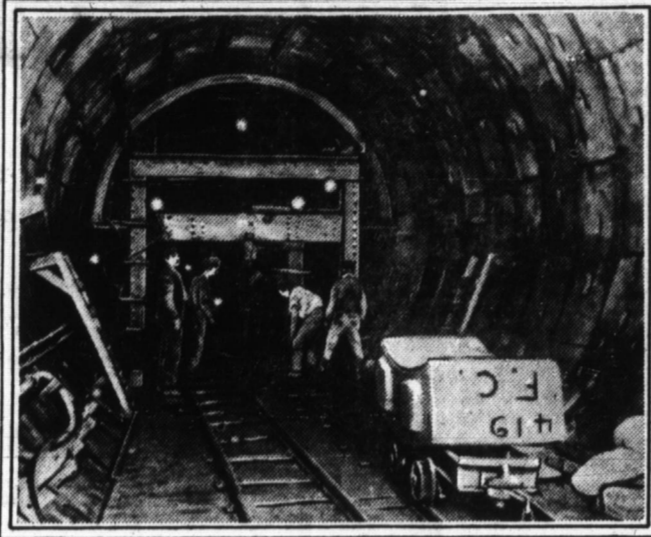

NEARLY a billion gallons of water a day—more than is used by the cities of Detroit, Philadelphia, Cincinnati and Washington combined—will be the capacity of a huge tunnel now nearing completion at the Rouge Plant of the Ford Motor Company, Dearborn, Michigan.

The tunnel will replace the present water intake system which supplies the Ford plants with 500,000,000 gallons a day. At the same time the company is remodeling its power house to greatly increase the power output.

Sixty Feet Under Ground In constructing the waterway, the largest of its kind ever undertaken by a single business concern, the engineers are burrowing sixty feet under ground for a distance of two and a fifth miles.

One of the most difficult tasks was that of tunneling under Baby Creek at a point which is crossed by a railroad bridge and where also a large sewer is under construction by the city of Detroit.

Boring of the tunnel is accomplished by means of a shield—a large steel cylinder fourteen feet long and twenty-

The head of one of the sections of the Ford tunnel showing the machinery used to burrow through the ground. In the foreground is one of the concrete blocks used to line the tunnel which has an inside diameter of fifteen feet.

one feet in outside diameter with a solid steel shell or skin two and a fourth inches thick. This shield has a bulkhead which is made fast near the front end. There are four openings through which the mud streams, like toothpaste from a tube, as the shield is shoved forward by twenty powerful hydraulic jacks.

When the shield has been pushed forward sufficiently concrete blocks two and a half feet wide and five feet long, each weighing 3,420 pounds, are

placed to form a ring around the circumference of the tunnel. One of them acts as a keystone so that the lining of concrete, which is eighteen inches thick, withstands the pressure of the earth. After this steel forms are set up and filled with concrete to form a solid inner lining which is also eighteen inches thick.

The present intake system of the Ford plant has a capacity of 500,000,000 gallons a day. The new tunnel will be able to carry 913,600,000 gallons.

Local meetings in the interest of a tobacco-marketing association were attended by 710 Stokes County farmers last week but few signed the proposed contract preferring to wait until next year.

Fifty-two Jersey cattle from Caldwell County are exhibited at three fairs this fall and took more than the usual number of ribbons.

SOUR STOMACH

Gas Formed, Head-Hurt, and Woman Had To Hold To Things When She Walked.

Kaufman, Texas.—"Two years ago, I began suffering with spells of indigestion," says Mrs. Marshall Smith, of this place. "It seemed like everything I ate disagreed with me. I had gas on the stomach, and often my head would hurt so bad I had to lie down."

"Everything would get black before my eyes, and I would be so dizzy when I would get upon my feet that I had to hold on to things, to walk around the room."

"My food soured on my stomach, and I was constipated. I had often read about Black-Draught, and my mother told me it was a good medicine to take, and so I began a course of it."

"It was not long until I was feeling better. I took a pinch after meals, and I soon found I was suffering much less. It relieved constipation, and I was not any longer troubled with indigestion."

"We try to keep it in the house, and I use Black-Draught now, whenever I feel a sick headache coming on. It is a fine medicine."

Theford's Black-Draught is prepared from medicinal roots and herbs, of highest quality, finely powdered, carefully combined and packaged by automatic machinery. EC-137

BLACK-DRAUGHT for Constipation, Indigestion, Biliousness

Lime and Soil Is Subject At Raleigh Conference

The need to use more lime on all soils where such liming is profitable was emphasized at a conference of agronomists representing 15 states held at the University of Tennessee at Knoxville and attended by C. B. Williams and L. C. Willis, agronomy workers at State College.

Reporting on this conference, Mr. Williams, as head of the department of agronomy at State College, said there was a general agreement among the scientists present that the heavier types of upland soils should be limed to full neutrality for growing red clover, alfalfa and sweet clover, with the precaution that the lime should be added well in advance of planting and given time to react with the soil.

Applications of the lime six months to a year before seeding have been found to give the best results. The lime should be harrowed into the soil and not mixed to the full depth of plowing.

Many dark bottom-land soils and sandy soils of the Coastal Plain will respond to light liming.

There is no direct increase in the availability of soil potash, magnesia or phosphoric acid expected as a result of liming. Some loss of nitrogen may occur where a good crop rotation is not followed.

Sometimes combinations of superphosphate and lime will give better results than lime used alone. Moderate amounts of ground dolomitic limestone can be mixed with well-cured superphosphate without making the phosphoric acid unavailable to crops.

The magnesia of dolomitic limestone neutralizes soil acidity at least as well as does lime and has the additional advantage of supplying magnesia to soils deficient in this element of plant food. There will be no injurious concentrations of magnesia in the soil where the dolomitic limestone is used properly, reports Mr. Williams.

VOTERS TO VISIT POLLS TUESDAY

(Continued from page one) the new Democratic candidate, seems to be gaining ground. Guilford is the dangerous county in this district.

Political interest is comparatively keen throughout the West and a large off-year vote is expected but, so far, a large part of the interest in the East is in counties where there is a real fight on rather than in these rock-ribbed Democratic counties which are needed to pile up a large majority for Mr. Bailey and the State ticket.

Directs Appeal to County Democrats For Funds

State Democratic Headquarters in Raleigh has requested the six women members of the State Executive Committee in the First District to raise \$16,500 for campaign expenses. As Martin County's representative on the committee, I am calling on those Democrats who are personally interested in the success of the party to assist me by making a small contribution. Make your check payable to O. M. Mull, Chairman, and mail to me promptly, so that I may forward same immediately to State Headquarters.

Mrs. Vernon A. Ward.

"Inside" Information

Sweepstakes for the best female in the State Fair Poultry Show went to a Dar Cornish hen owned by Olan Barnes of Guilford Road, Greensboro.

Claud Moore of Clay County has had an abundance of fresh vegetables for sale and for table use from a piece of poor land that he limed heavily last spring.

WANTS

TIMBER FOR SALE: I HAVE ABOUT 50 acres of good timber for sale. On this tract you will find pine, gum and poplar. If interested, see me within the next few days, before the swamps are filled with water. R. E. Lilley, 2 miles south of J. E. Lilley's, Williamston, R. F. D. o28 2t

NOTICE North Carolina, Martin County—In the Superior Court.

D. G. Matthews vs. Peter Dickens An action has been begun in the Superior Court of Martin County entitled as above, to foreclose certain tax certificates of sale, dated June 6, 1927, covering tract of land in Jamesville, N. C., adjoining a lane, and on the other three sides by J. M. Hassell land, containing Four (4) acres, more or less, and the defendant above named will take notice that he is required to appear at the Clerk's office of the Superior Court of Martin County within thirty days after service of this notice, and answer or demur to the complaint filed therein or the relief demanded will be granted.

It is further ordered that all persons claiming an interest in the subject matter in the above cause are required to appear, present and defend their respective claims within six months from the date of this notice, otherwise, they shall be forever barred and foreclosed of any and all interest or claim to the property or the proceeds from the sale thereof.

This 28th day of October, 1930. R. J. PEEL, Clerk, Superior Court. oc-31-4t

SALE OF VALUABLE FARM PROSPERITY Under and by virtue of the authority conferred upon us in a deed of trust executed by Joseph Early and wife, Felicia E. Early on the 28th day of

March 1923 and recorded in Book 0-2, Page 281, we will on Saturday the 22nd day of November 1930 12 o'clock noon at the Courthouse door in Martin County, Williamston, N. C., sell at public auction for cash to the highest bidder the following land to-wit:

A tract of land lying and being in Goose Nest Township, Martin County, State of North Carolina, beginning at the intersection of the McGee Branch with the Palmyra Road, thence with the various courses of the said branch the following callings S. 2.00 W. 8.15 chs. thence S. 12.30 E. 13.00 chs. thence S. 3.45 W. 6.00 chs. thence S. 6.10 W. 8.50 chs. thence S. 11.45 W. 5.60 chs. to the mouth of Marsh Branch, thence with the said Marsh Branch the following callings, S. 87.30 E. 15.20 chs. thence N. 78 E. 18.00 chs. thence N. 36 E. 10.00 chs. to a pine, containing 152.16 acres.

This sale is made by reason of the failure of Joseph Early and wife, Felicia E. Early to pay off and discharge the indebtedness secured by said deed of trust. A deposit of 10 per cent will be required from the purchaser at the sale. This the 14th day October 1930. W. G. BRAMHAM AND T. L. BLAND, RECEIVERS FOR FIRST NATIONAL COMPANY OF DURHAM, INC., TRUSTEE. Formerly FIRST NATIONAL TRUST COMPANY, Durham, N. C. oc-31-4
