## TO THE PATRONS AND FRIENDS OF THE PLANTERS AND MERCHANTS BANK:

We want to publicly thank the patrons and the friends of our bank for their attitude toward us and their assistance since the bank closed during the period of hysteria when so many banks in the State had to close their doors in the month of December, 1930.

It is through the friendship and confidence of our patrons that we have been able to open our doors, and we deeply appreciate the confidence bestowed upon us and the tireless efforts made by our friends to help us get everything in shape to re-open according to the banking laws of the State.

We are under the supervision of the Corporation Commission of the State and our bank is as safe a place as can be found to deposit your money. We will be glad to acquaint you with the plans under which we are operating, and ask you to cooperate with us that we may work out the affairs to the best interest of all concerned.

The confidence expressed in the bank since its re-opening on the 9th of this month has been shown by substantial deposits, for which we are very grateful.

Yours very truly,
