A Great Discovery
When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borosone, the modern antiseptic. You can get Liquid Borosone, in a size to fit your needs and purse, from

the main work of the afternoon. A number of hats were greatly improved.

Miss Sleeper also gave an interesting talk on the clubs of other counties and her visit to Currituck County, which was enjoyed by a number of county club members.

IN congratulating the winners in the great Camel contest we want at the same time to thank most cordially the approximately million men and women who displayed their friendly interest by sending in an entry.

We wish also to thank the millions of smokers throughout the country for the appreciation they are showing for our new Humidor Pack as is evidenced by the notable increase in the sale of Camel cigarettes.

By means of this dust-proof, germ-proof, moisture-proof Cellophane wrapping the rich aroma and full flavor of choice Turkish and mellow Domestic tobaccos have been air-sealed in Camels for your enjoyment.

If you have not tried Camels in the Humidor Pack all we ask is that you switch over to this brand for one day.

After you have learned how much milder, how much cooler, how much more enjoyable it is to smoke a perfectly conditioned fresh cigarette, go back to the harsh hotness of stale cigarettes if you can.
