CATTLE FEEDING PAYS 2 FARMERS
 Two former New Jersey farmers bought residences and settled down in retirement in Craven county, near New Bern, two years ago. Sensing good possibilities in it, they bought 400 acres of cut-over land last fall. There were no improvements. They turned the place into immediate use by importing from Waynesville, 40 head of feeder cattle. These they fattened and sold at a good profit, although they had to buy feed and prices were low. Now they have erected a big barn and are growing feed, most of it on rented land, pending the getting enough of their own land in condition to plant. They are going to feed 100 head of cattle this winter. The two men are brothers, W. H. and R. S. Francisco, and have worked as partners 41 years. "We are getting along in years," says W. H. Francisco, the eldest. "But for that, I think we'd make a lot of money feeding and even raising cattle down here where all the conditions are good. We went into it just to have something to do. I am surprised that more of it isn't done around here." The Franciscos specialized in livestock production when farming in New Jersey.

Amid the applause of his fellow-townsmen, 40-year-old F. H. Stickey received his diploma from the Middletown (Conn.) high school. Registered motor vehicles in the world now number 35,805,602, of which 26,697,398 are in the United States.

SCHOOLS WILL GET POSTERS
Large Portrait of George Washington To Be Sent To All Classrooms
 Announcement was made today by Congressman Lindsay C. Warren that every school room of every school in his district will, within a few weeks after the opening of the new school term, receive a beautiful portrait-poster of George Washington, executed in colors. The portrait to be used in these posters is a reproduction of the famous Gilbert Stuart Athenaeum painting and will be 22 inches by 28 inches in size. This poster was selected after a good deal of study and is considered the finest example of poster-making available. The poster-pictures are being distributed through the cooperation of the United States George Washington Bicentennial Commission of Washington, D. C., in order to stimulate interest among the thousands of school children of the district in the coming nine-months celebration of the two hundredth anniversary of the Birth of the Father of our country. The United States Commission is placing a good deal of emphasis on the cooperation of the school children of America in this historic event. This poster-picture is just one feature of its work. Congressman Warren announced that he will see to it that the schools, clubs, churches, and fraternal and patriotic organizations in his district will be adequately supplied with literature to be issued by the United States George Washington Bicentennial Commission. The George Washington Bicentennial celebration will begin on February 22, 1932, and last until the following Thanksgiving Day.

Attention Farmers
 I know you feel discouraged over the price of tobacco, also other crops, but there is no use in your sitting down and complaining. Those old packages needed repairing last year and were neglected, and they are partly responsible for the poor quality of your tobacco this year. I am in sympathy with the tobacco farmer, although I do not have a crop to sell, but I have a saw mill, and until further notice I am going to offer to saw lumber for any one who cares to haul me logs for \$5.00 per thousand for pine and cypress, and \$7.50 for oak. This, of course, would mean cash, and if your bill is not paid in 10 days, your lumber will be sold for same. I am offering anything on my yard—4 by 4s, framing, etc.—from \$15 per 1,000 down. Now is the time to repair around your plantation, as this is an excellent opportunity to secure your lumber stock. We carry a large stock on hand at all times. Let me have your orders at once, as this offer may be recalled.

CONSTITUTIONAL STIPULATION

"If I got constipated, I would get dizzy and have swimming in my head. I would have very severe headaches. For a while I thought I wouldn't take anything—maybe I could wear out the headaches; but I found they were wearing me out. I found Black-Draught would relieve this, so when I have the very first symptoms, I take Black-Draught and now I don't have the headache. I am a firm believer in Black-Draught, and after using it 20 or more years, I am satisfied to continue its use."
