NOTICE OF SALE OF REAL PROPERTY

Ambers and wife, Eliza Ambers, dated September 27th, 1930, and of record in the public registry of Martin County, in book C-3, at page 354, said deed of trust having been given to secure five certain notes of even date and tenor therewith, default having been made in the payment of the said notes, and the stipulations contained in the said deed of trust not having been complied with, and at the request of the holder of said notes, the undersigned trustee will, on Monday, the 2nd day of November, 1931, at 12 o'clock m., in front of the courthouse door in the town of Williamston, North Carolina, offer for sale to the highest bidder, for cash, at public auction, the following described real estate, to wit: That certain house and lot situated on Main Street in the town of Williamston, North Carolina, now occupied by W. PROFIT FROM GRASS FED TO BEEF CATTLE

Tests Made in Eastern Carolina Show Value of Pasturage

With the curtailment of cotton and tobacco acreage, new areas are released for planting to pasture grasses. Such grasses will furnish grazing for beef cattle and give an added income to landowners. "In one of the tests which we made with beef cattle in eastern North Carolina this past summer, we found that an ordinary pasture of carpet grass, lespedeza and white clover paid the owner excellent returns through the grazing of beef cattle," says L. I. Case, animal husbandman at State College. "E. E. Bell, of Jones county, had eleven acres of this kind of pasture, which he planted a few years ago. Twenty-six head of cattle grazed on this eleven acres from June 8 until September 8, and with no supplementary feed of any kind gained 2,960 pounds. This amounts to 269 pounds an acre. At five cents a pound, this is worth \$13.45."

In other words, says Mr. Case, the owner received \$13.45 an acre for the three months. There are thousands of acres of land in all parts of North Carolina which may be utilized in this way. Particularly will be the eastern farmer be interested in planting pasture because under present conditions, he must reorganize his farm, throwing large areas into one farm and quit the one-man and one-mule system of cash cropping, which has brought him into bankruptcy. Not only will beef cattle pay returns from grazing these areas, but dairy cattle, sheep, and hogs may also be used in addition. Recent tests by county farm agents and others show that lespedeza will help to make good pastures in all parts of the State. In the east, the addition of carpet and other grasses prolongs the grazing season with excellent results, he says.

It's Good Business To Buy Your Suit at Margolis Brothers

When so much good style and fine tailoring presents itself for so little, common sense says "buy." These are not "sale" suits in the ordinary meaning of the word. They're high grade garments, every one of them snappy in appearance; serviceable as to wear. Real Suits, we say. Real "Buys," you'll say!

CONSTIPATION take

"If I got constipated, I would get dizzy and have swimming in my head. I would have very severe headache. For a while I thought I wouldn't take anything—maybe I could wear out the headaches; but I found they were wearing me out. I found Black-Draught would relieve this, so when I have the very first symptoms, I take Black-Draught and now I don't have the headache. I am a firm believer in Black-Draught, and after using it 30 or more years, I am satisfied to continue its use."
