Our Only Hope

When folks buy what they actually need and stop the great outflow of cash going for the things that we do not need, then things will pick up, and folks will be able to pay taxes and support the churches. The schools and churches of the land are our only hope. If we neglect them, civilization will decay and the dark ages will return. We ought to be earnest about these great tasks and see that they are not crowded out of our daily program.

Should Remember This Year

Prices continue to go lower, even with the big shortage of tobacco in the Eastern Carolina belt. Now that the tobacco is practically all gone, it can easily be seen that the shortage will almost certainly be far greater than the former estimates.

Although nearly every farmer thought he had a good crop when it was taken from the curing barns, they have been fed up so much, on the warehouse floors, with "too green," "too blue," "too yellow," "too red," "too black," "too mingled," "too speckled," "too thick," "too thin," "too long," "too short," "too dry," "too wet," that they have become discouraged with the stuff. In fact they fear that this common crop is going to kill all the chowers the "dippers" and the smokers when the nasty, dirty stuff comes back to them to use.

Now, the farmers have stood rather quietly by and taken their dose for this crop. But next year they are going to go slow in the tobacco business. They certainly should take this year's experience to heart and profit by it in the future.

Credit Too Often Abused

When we American people have cash, we have credit; when we have no cash, we have no credit. Our credit has often been a curse rather than a blessing, because we have abused it so badly.

What we need to do is to establish our credit when we have no cash, and then when we get cash, maintain our credit.

The Navy League

What is the Navy League? Is it not an organization fostered and fed by those who ignore our national welfare, who wish to turn the treasury over to the exploitations of those who have personal ends to serve—navy yards, ship builders, munition manufacturers, and to high officials who want promotions, prominence, and money for themselves and their friends?

Is it any more than a bunch of selfish self-styled safety advisers deliberately trying to direct the policies of the government, taking them from the Congress, the president, and the cabinet.

Isn't the Navy League one of the curses of the country, more interested in selfishness and bigotry than in peace and safety? It is undoubtedly a product of selfishness, fostered by greed and self-centeredness, one of its main purposes being to spread false propaganda to an innocent people in order to make them hate other folks, and fear them, so that they may be exploited for war preparations.

Few Know Real Hardships

A majority of the people know very little about the real hardships of life. They do not know that many people never have much to eat, and then only the plainest and coarsest of food. Thousands live in shacks with cracks between every plank, and sleep at night without sufficient clothing. Of course, some of this is on account of bad conduct and poor management. Yet there are many who do their best and still have to suffer.

A little help goes a long way with them in many instances. Newspapers that we throw away, when pasted on walls, keep out cold air and save much fuel and shivering. Go to your servant's house, and you will generally find that they are having a hard time.

We need to know what is going on about us and help others all we can.

Japs Should Be Stopped

The nations of the world should not permit Japan to tantalize China. China is now the most peaceful and orderly nation on earth—so far as outsiders are concerned—although she is in many ways the most powerful. If Japan is permitted to antagonize and pillage her until she gets her fighting blood up, it may not be so long before she will march across Europe and set our present governmental arrangements at naught.

Now is the time to tell the Japs when and where to stop.

TYRRELL PEANUTS ARE BRINGING GOOD PRICE

The peanut crop of Tyrrell County was dug and picked without a drop of rain on the nuts. They are selling for 3 cents a pound at the farm.

OVER 2,000 ATTEND CATTLE SHOW HELD IN MORGANTON

Over 2,000 persons attended the recent Guernsey cattle show held in Morganton by Farm Agent R. L. Sloan, of Burke County.

Arthur Byrd, on of Harnett's live-at-home farmers, has made 1,400 gallons of sorghum syrup for himself and neighbors.

TENANTS HAVE SUPPLY OF SYRUP AND FLOUR

Wilson Brothers, of Craven County have an average of two barrels of sorghum syrup for each tenant family and enough home-grown wheat to supply each family with flour this winter.

INDIGESTION

"My work is confining, and often I eat hurriedly, causing me to have indigestion. Gas will form and I will smother and have pains in my chest. "I had to be careful what I ate, but after someone had recommended Black-Draught and I found a small pinch after meals was so helpful, I soon was eating anything I wanted. "Now when I feel the least smothering or uncomfortable bloating, I take a pinch of Black-Draught and get relief."

Not Another Warehouse In Eastern North Carolina Can Beat Our Record

We have already sold a considerable quantity more tobacco at our warehouse this season than we sold during the entire season last year. Indications are that our total volume of sales is going to be more than TWICE AS MUCH as was the total volume last year.

WHY?

Because the farmers of Beaufort, Martin, Pitt, and other counties have discovered that NOWHERE can they get any better sales for their tobacco than at our house. We push every pile to its maximum limit.

Prices Are Holding Up

Good grades of tobacco are selling well and a number of our customers this week have made averages in excess of forty cents. Bring us your next load, and we will guarantee you a satisfactory sale.
