### A Foolish Practice

One foolish thing that some farmers do is to let the season pass and pay no attention to saving seed for the new crop. They have to go out and buy seed corn, cotton seed, turnip seed, collard seed, potatoes—both sweet and Irish—peanuts, soy beans, field peas, and so on.

This is oftentimes the mark of a poor farmer and in most instances no excuse can be found for such practice, and though the fellow may plead bad weather, or something, for an excuse it is too often caused by pure laziness. No community or farmer need look for prosperity unless it or he has enough industry and forethought to preserve seed for the crops.

### Our Biggest Problem

The biggest problem we have to contend with is what to do with that part of our population which is unwilling to work for a living and will destroy honor to procure their physical needs by stealing, lying, cheating, making liquor, or doing any other unlawful thing rather than work honestly for a living.

The great increase in the number of young white criminals shows that class to be less inclined to work than any other class of people.

Perhaps if people had a higher regard for their character they would work rather than steal. If so, then the important thing for the home and the school to do is to impress on every boy and girl the honor of work and the great dishonor of procuring a living by dishonest and illegal methods.

The impression that some have, that education is for the purpose of teaching ways and means by which

one may be able to dodge work, is an error which should be corrected in the minds of all people. For there is but one reason for education, and that is to equip men and women to do more and better work. Any other kind of education is a hindrance rather than a help.

An educated man can do anything an uneducated man can do, and some things much better, but an uneducated can not do anything an educated man can.

It is going to take about as strict discipline and drilling for the children of today, if they are to succeed, as is required of an army. We must become both capable and dependable citizens if we are going to come back with a stable, honorable, prosperous, and happy state of society.

The home must reform, if it can. The school must reform. And the teachers of the country will have to take the lead.

### Start Salary Cuts With Congressmen

We hope to see the salary-cutting axe laid at the Capitol door in Washington.

Ten years ago it took 7,500 bushels of corn to pay a Congressman a year's salary. Now it takes 40,000 bushels. Ten years ago it took 100 bales of cotton to pay a year's salary—now it takes 350 bales. Ten years ago 37,500 pounds of tobacco would pay a Congressman for a year's politicking; now it takes 160,000 pounds.

Some of them say they can not live any cheaper—which is false, of course. If they will quit the high-priced wines, cut out their women parties, stop trying to run a constant political campaign, stay in their offices and work diligently for the people and live the simple life, as did George Washington and Thomas Jefferson, they could get along with a big salary cut and do a much greater service for their people.

The thing that needs to be done is to break the ring of extravagance that exists in the National Capital. No man has the right to wallow in wealth and extravagance while people are starving.

And it will do the people good if the congressional society ring is knocked into a cocked hat and broken into a thousand pieces.

### Farm Board Should Be Continued

The movement to abolish the United States Farm Board originated in the minds of the speculators in farmers' crops. If the Farm Board can grow until all the corn, cotton, wheat, and potatoes can be handled through it, it will put the produce exchanges out of business, as well as the fellows who have eaten up the farmers' profits for half a century.

Of course, the Farm Board has had its troubles and faults, and made its mistakes. But no more than the banks and other business institutions.

It should be continued and properly maintained.

### Cases and Cases

The woman who carries a vanity case and a cigarette case is more likely to have a divorce case than those who do not carry so many cases.

Statement of the Ownership, Management, Circulation, Etc., Required by the Act of Congress of August 24, 1912, of The Enterprise, published semi-weekly, at Williamston, N. C., for April, 1932.

Before me, a notary public in and for the state and county aforesaid, personally appeared W. C. Manning, who, having been duly sworn according to law, deposes and says that he is the editor of The Enterprise, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 411, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Publisher, W. H. Booker, Williamston, N. C.; Editor, W. C. Manning, Williamston, N. C.; Managing editor, F. M. Manning, Williamston, N. C.; Business manager, W. C. Manning, jr., Williamston, N. C. 2. That the owners are: W. H. Booker, W. C. Manning, F. M. Manning, W. C. Manning, jr., all of Williamston, N. C. 3. That the known bondholders, mortgagees, and other security holders, or owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Branch Banking and Trust Co., Williamston, N. C. 4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company, but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or

in other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustee, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

W. C. MANNING, Editor. Sworn to and subscribed before me, this 29th day of March, 1932. M. J. MOYE, Notary Public. (My commission expires 8-30-32.)

### TRUSTEE'S SALE

### Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 pounds. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast—this is the SAFE, harmless way to reduce, as tens of thousands of men and women know.

For your health's sake ask for and get Kruschen at Clark's Drug Store, Inc., the cost for a bottle that lasts 4 weeks is but a trifle and if after that period you are not joyfully satisfied with results—money back.

## The TIRE That Taught THRIFT To MILLIONS!

FIRESTONE tires appeal to the thrifty. They give Extra Values at the lowest prices ever known.

Firestone do not manufacture tires under special brand names for mail order houses and others to distribute. Special brand tires are made without the manufacturer's name. They are sold without his guarantee or responsibility for service.

You take no chances on Firestone tires. They are silent, safe, long-wearing — and each tire bears the Firestone name, which is a guarantee of satisfactory service.

Firestone's greater economies in buying, manufacturing, and distributing make possible these greater values and lower prices.

Stop at our store today. See sections cut from Firestone tires—special brand mail order tires and others. Take these sections in your own hands—compare Quality and Construction. Then you, too, will know why—"Firestone is the tire that taught thrift to millions!"

### Extra Values GUM-DIPPED CORDS

The Firestone patented Gum-Dipping process transforms the cotton cords into a strong, tough, sinewy unit. Liquid rubber penetrates every cord and coats every fiber, guarding against internal friction and heat, greatly increasing the strength of the cord body, and giving longer tire life.

### TWO EXTRA CORD PLYS UNDER THE TREAD

This is a patented construction, and the two extra cord plys are so placed that you get 56% stronger bond between tread and cord body, and tests show 26% greater protection against punctures and blowouts. It sets a new standard for tire performance on high speed cars.

### NON-SKID TREAD

Tough, live rubber, specially compounded for long, slow wear. Scientifically designed non-skid grooves give greater traction and safe, quiet performance.
