Leg Troubles

Varicose Veins
Ulcers—Bunches

An amazingly simple home treatment gives quick, sure relief without enforced rest, operations, injections—nor failure. Simply rub the afflicted limb with a generous amount of Emler's Oil and bandage it comfortably tight. Use a bandage three inches wide and long enough to give the necessary support, winding upward from the ankle to the knee, the way the blood flows in the veins. Just follow directions, and you are sure to be helped. Clark's Drug Store, Inc., won't keep your money unless you are.

Macedonia Club Meets

The Macedonia Home Demonstration Club held its regular meeting last Wednesday in the home of Mrs. John W. Gurkin.

During the business session, following the opening exercises, it was voted not to allow women outside of the club the use of the pressure cooker. Three new members were enrolled at this meeting. Miss Viola Grimes, Mrs. Z. T. Gurkin, and Mrs. Clarence Gurkin.

Our district meeting, which covers five counties, will be held the first Wednesday in May at Williamston. Each county is to present a ten-minute program, showing what work they are doing. Miss Sleeper thought it would be a good idea for every one to wear cotton dresses. All club members are urged to go.

Mrs. H. U. Peele, nutrition leader, pointed out what we should eat to create the most energy in our bodies, including—fruits, vegetables, meat once a day and plenty of milk.

Mrs. John A. Gurkin, leader of home management, gave a report on an article she read regarding the farmer's wife. She doesn't get any credit on the tax assessors' books, nevertheless her job is as homemaker.

The topic for demonstration and discussion was "cold storage and sanitation." Miss Sleeper gave us new ideas of placing food for the best results, also for cleaning refrigerators.

Mrs. Gurkin's ice box was used to demonstrate the placing of food.

At the meeting those present reported having canned 308 quarts of meat, using the steam pressure cooker. This does not represent the total, but these jars, if sold at 25 cents per jar would return \$77, sufficient to pay for 5 steam pressure cookers.—As reported.

Entertains Bridge Club

On Saturday evening, at her home near Jamestown, Miss Ruth Modlin graciously entertained the members of her bridge club and a few invited guests.

Three tables were arranged for play, and after several progressions scores were added and prizes awarded. Miss Ocie Waters received high score prize and Miss Louise Roebuck low score prize.

The hostess, assisted by her sister, Miss Hilda Modlin, served a delicious chicken salad plate with hot coffee.

The following made up the tables: Misses Emily Smithwick, Louise Roebuck, Louise Paxton, Camille Fleming, Ocie Waters, Edith Stallings, Opal Brown, Ella Mae Gaylord, Annie Horner, Fannie Latham Martin, Mrs. Charlie Davenport, and Hilda and Ruth Modlin.

EXPLAINS RULES WHICH REQUIRE FISHING LICENSE

Fishing Outside Limits Of County Requires State Fishing License

Any one who fishes outside the limits of his own county must have a state fishing license, the fishermen of the state were reminded Friday by J. S. Hargett, assistant director of the Department of Conservation and Development.

The requirement, Mr. Hargett emphasized, extends to commercial as well as inland waters, the only exceptions being the ocean, sounds, and the wide mouths of the Cape Fear, Neuse, Pamlico, Tar, and New Rivers, Wilmington, New Bern, Washington, and Jacksonville marking the inland limits of territory where no licenses are required.

The State Anglers' Act, Mr. Hargett explained, exempted only the ocean and sounds as waters in which no licenses are required by residents of any other counties except those in which the waters are located. The law, however, gave authority to the Board of Conservation and Development to specify additional waters in which license requirements do not apply. Under this authority, the board excepted the mouths of rivers which have been specified.

Although weather handicaps probably resulted in one of the lightest Easter Monday fishing days in years, according to the conservation officials, warm spring days are expected to bring out fishermen in large numbers in the eastern and central parts of the state.

Seasons for large mouth bass and other species except mountain trout, close during spawning period on May 1 for one month and ten days, or until this cost of slightly more than 65

cents a day shows only 14.23 cents a day was for food, 8.86 cents for wearing apparel, camp supplies 0.01 cents a day, and central office cost less than a cent a day. The biggest item, was 19.20 cents a day for salaries for guards, supervisors and specialists for medical attention during the six months period. The average number of convicts for the first three months was 3,420, but for the last three months it had mounted to 4,320, the recent report shows.

PAINS QUIT COMING

"When I was a girl, I suffered periodically with terrible pains in my back and sides. Often I would bend almost double with the intense pain. This would last for hours and I could get no relief.

"I tried almost everything that was recommended to me, but found nothing that would help until I began taking Cardui. My mother thought it would be good for me, so she got a bottle of Cardui and started me taking it. I soon improved. The bad spells quit coming. I was soon in normal health."

WORRYING ABOUT BLOOD PRESSURE?

At the first sign of danger, take a laxative. Cut down on alcohol, coffee and tobacco. Eat lightly for several days. Take a tablespoonful of Mentha pepsin before meals to make digestion as easy as possible. Keep quiet until your stomach is settled and the dizzy spells have passed. Have your physician check your blood pressure at frequent intervals. Continue to protect yourself by taking mentha pepsin before every meal. (You can get Dare's Mentha Pepsin from Clark's Drug Store or any other reliable druggist.) Avoid heavy food and too heavy meals—especially at night. Do this faithfully and the chances are that you will prevent—or at least postpone—the danger of a stroke.
