### HOW ONE MAN LOST 22 POUNDS

Mr. Herman Runkis of Detroit writes: "A few lines of thanks from a rheumatism sufferer—My first bottle of Kruschen Salts took all of the aches and swellings out of my joints—with my first bottle I went on a diet and lost 22 pounds and now feel like a new man."  
To lose fat safely and quickly take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast.  
For your health's sake ask for and get Kruschen—the cost for a bottle that lasts 4 weeks is but a trifle at any drug store in the world and if after the first bottle you are not joyfully satisfied with results—money back. Clark's Drug Store will be glad to supply you.

### Annual Sale of Guerneys To Be Held On May 5th

The annual spring sale of the North Carolina Guerneys Breeders Association will be held at Morganton, Burke County, on May 5.  
More than 75,000 pounds of lespedeza has been planted in Alamance County this spring in continuing the pasture campaign started some years ago.

### HIGHWAY FORCE COLLECTS LARGE SUM FOR STATE

#### \$39,446 in Revenue Secured By Patrolmen During Month of March

Raleigh.—In addition to traveling 159,000 miles, stopping 18,623 cars and trucks and arresting 972 drivers for major violations of the highway and motor laws, the State Highway Patrol collected \$39,446 in revenue for the state and counties, either from tax evaders or from fines and forfeitures, the report of March, issued recently by Chairman E. B. Jeffress of the State Highway Commission, shows.

Of this \$39,446 in revenue collected as a result of the patrol's activities, \$18,981 went to the county school funds from fines and forfeitures, the balance going into the state's general or highway funds, not a penny of it going to the highway patrol, Jeffress pointed out.

"Some people seem to have the idea that all the patrolmen do is to collect money and that they must be neglecting their duties patrolling the highways," Jeffress said. "But this is not the case. Whatever revenue is collected by the patrol is obtained in the regular routine of their duties in enforcing the highway and motor vehicle laws. The greater part of this revenue is obtained from those who attempt to evade payment of the automobile license taxes or who try to operate their cars or trucks under improper licenses. Revenue of this sort collected last month by patrolmen amounted to \$20,465. The county schools benefit from the fines and forfeitures, since the law requires that all the money collected from these sources shall go into the county school fund.

Of the 972 arrested by patrolmen in March, 107 were for drunken driving, 170 for reckless driving, 113 for excessive speeding, 135 for using improper license tags, 4 for improper lights and 477 for miscellaneous offenses. Of those tried in March, 943 were found guilty and only 28 not guilty.

A total of 15,910 violations were noted by patrolmen and the drivers stopped, most of them let off with warnings. The lights of 7,375 cars were fixed at filling stations and tickets for defective lights issued to the drivers of 735 additional cars. Tickets were issued to 388 drivers with improper license tags and to 548 with no license tags. A total of 287 trucks were weighed, of which 252 were found to be overloaded.

### STUDY SALARIES OF COUNTY AND TOWN OFFICIALS

#### Survey Is Being Made By State Division of Personnel

Raleigh.—What is the cost of government in the 100 counties and 495 incorporated cities and towns of North Carolina? What portion of the total amount of taxes collected in the counties and towns is paid back to office holders? Are the salaries paid to city and county officials in line with salaries paid by the state and by business generally, or are they higher than in other lines of endeavor?

The Division of Personnel is already starting to get the facts with which to answer these questions, in accordance with the law enacted by the 1931 general assembly, which directs that the Division of Personnel shall make a study of the salaries paid in the counties, cities, and towns, and issue a report on its findings, as contained in section 15, chapter 277, of the Public Laws of 1931, Frank Dunlap, director of the division announced today.

"I do not know just how far we shall be able to go in making this survey, since it is a big job to get all the information necessary, but we are going to do the best we can under the circumstances," Dunlap said.

The Division of Personnel has no direct supervision over the salaries of county and city officials and the results of the survey will be purely recommendatory and not compulsory, so that whatever action is taken, if any, will have to be taken by the governing bodies of the various counties, cities and towns. However, the results of the survey are expected to be very illuminating and to show whether or not the counties and towns are anywhere near in line with the state and business in general in the salaries paid their officials.

During the 1931 general assembly, when Governor O. Max Gardner asked the general assembly to reduce the salaries of all state employees 10 per cent, he also asked it to reduce the salaries of all county, city, and town employees the same amount. The general assembly, however, refused to include the counties and towns and made the salary cut apply to state employees only.

This survey is expected to meet with opposition from many county and city officials, though it will have the approval of most taxpayers.

### IT'S A HARD LIFE

(Morganton News-Herald)  
One of the inspectors of the State Board of Public Welfare relates that the most discouraged man he has heard talk about the depression was the one who told him the following tale of woe:  
"In 1928, I thought I was having a hard time of it. Seemed like I could hardly get on. The next year was even worse. We just couldn't make both ends meet, so they took my four little children and put 'em in an orphanage. We thought that was bad—but the next year, 1930, they hauled my poor wife to the county home." The man sighed, "Thought times couldn't get no worse than they were last year, but this year, 1931, is even worse. Looks like now they're going to get my Ford."
