

Society & Personals
 Mrs. ELBERT S. PEEL, Editor

Here Wednesday
 Dr. W. P. Few, president of Duke University, and Professor F. S. Aldridge were here for a short while Wednesday.

Returns From Durham
 Mrs. H. M. Clark and children, Bettie Sue and Jerry, returned this morning after a brief visit with relatives in Durham.

Visitor Here Wednesday
 Judge J. C. Smith, of Robersonville, was a business visitor here on Wednesday.

Attends Meeting in Raleigh
 James C. Manning attended an educational meeting in Raleigh Wednesday.

Visiting His Brother
 Mr. John Parker, of Norfolk, Va., is here this week visiting his brother, Mrs. W. H. Gurkin.

Attends Meeting in Hertford
 Rev. C. T. Rogers attended the Methodist Conference in Hertford this week.

Visiting Her Daughter
 Mrs. J. T. Pope, of Weldon, is here this week visiting her daughter, Mrs. Vernon Godwin, and Mr. Godwin.

Here From Farmville
 Mr. A. J. Moye and Mesdames Mary Patterson and Henrietta Williamson and Miss Cora Lee Patterson, of Farmville, are spending today with Mr. and Mrs. James C. Manning.

In Town Yesterday
 Mr. Ben Manning, of Griffins Township, was in town yesterday stopping.

Here From Robersonville
 Mr. Clyde Everett, of Robersonville, was in town yesterday.

Here From Griffins
 B. R. Manning, of Griffins, was a visitor in town yesterday.

In Town Yesterday
 Mr. and Mrs. Jim Bryant, of Robersonville, were in town yesterday.

In Lumberton
 Mrs. J. L. Rodgerson and children are spending the week-end with Mr. Rodgerson in Lumberton.

Attend Services Here
 Mesdames Vance Roberson, Irving Smith, Abram Roberson, and Mayo Little attended the services at the Christian church here Wednesday night.

Returns Thursday
 Mr. C. G. Crockett returned yesterday from the strawberry section of the State, where he has been on business this week.

In Elizabeth City
 Messrs. K. B. Crawford, Titus Critcher, and W. K. Parker were in Elizabeth City yesterday.

Here From Plymouth
 Miss Helen Duvall and Messrs. Henry and Frank Spruill, of Plymouth, visited friends here Wednesday night.

Here From Tarboro
 Mrs. Clark, of Tarboro, was here yesterday visiting Mr. and Mrs. C. D. Anderson.

Here From Hamilton
 Mr. Henry Johnson, of Hamilton, was a business visitor here Wednesday afternoon.

From Bear Grass
 Buck Rogerson, of Bear Grass, was in town yesterday shopping.

In Norfolk Wednesday
 Mr. and Mrs. Earl Wynn and little son spent Wednesday in Norfolk.

Visitor From Windsor
 C. H. Pruden, of Windsor, attended to business matters here yesterday.

From Griffins
 Ben Manning and John E. Griffin, of Griffins Township, were here for a short while Wednesday.

In South Carolina
 James E. King spent Wednesday in Cherokee, S. C.

Here From Hyde County
 Ernest Mann, of Hyde County, was here for a short while last night.

In Jamesville This Week
 Joe Gray Corey had a showing of the new V-8 Ford in Jamesville this week.

Mr. Pope Ill This Week
 Mr. John E. Pope, local insurance man and county commissioner, is confined to his bed by illness this week.

Visitor From Tarboro
 Mr. Alonza Mizell, of Tarboro, was here Tuesday for a short while visiting friends and relatives.

Visiting Relatives
 Mrs. Slade Peel, of Williamston, Route 1, has been in town this week visiting relatives.

From Roanoke Rapids
 Mrs. Mary Taylor, of Roanoke Rapids, will return this week-end to her home after spending several days here with her son, Mr. Herbert Taylor and Mrs. Taylor.

From Hardison's Mill
 Mr. Rome Corey, of the Hardison's Mill section, visited relatives here this week.

In Durham This Week
 Billie Clark spent Wednesday and Thursday of this week in Durham, visiting his brother, Claud Baxter, who is recovering from an operation performed in a Durham hospital several days ago.

American children have on deposit more than \$52,000,000 in school savings banks throughout the United States.

PAY AS YOU GO FARM SYSTEM IN CRAVEN COUNTY

Strict Economy and Wise Planning Called For By New Method

Craven County farmers have started a pay-as-you-go system of farming this season in which they endeavor to pay cash for all farm operations and have enough between season crops and livestock or poultry to keep the farm on a cash basis.

The plan calls for strict economy and wise planning but Craven farmers have had experience in economy since the epidemic of bank failures and other reverses have thrown them largely on their own resources. The record of the Craven County Farmers' Mutual Exchange has already been of inspiration to other groups of landowners in North Carolina and the formation of the new saving and loan association is another movement that is attracting attention.

C. B. Farris, county farm agent of Craven, says it is rather hard to convince the farmers of his county being on a pay-as-you-go basis when it is realized that 354 of them applied for \$55,235.44 in government seed loans yet it is a fact, he says, that new money to the extent of \$18,203.92 has come to the county by reason of between crops, fat steers, fat hogs, poultry and eggs.

The Gaskins community of near Vanceboro is the best example of the pay-as-you-go type of farming. This is due largely to the inspiration of young Rudolph Gaskins who has found that he can grow early truck and other crops to fit in with his scheme of cash crops without sacrificing anything to the new idea. The income from these sideline crops has already meant \$4,200 to the community and will mean more when the 300 acres now planted to beans, early sweet corn, squash and early sweet potatoes come into bearing.

Other farmers are selling eggs, poultry, hogs and steers to pay their way on a cash basis. Mrs. Mae McIlwain of the Bellair community has put her farm on a cash basis by an income of \$50 a week from sales at the New Bern curb market.

URGES FARMERS TO ORGANIZE TO BUY CHEAPLY

Farmers Need Business Organization in Every County

There should be in Martin County as well as in every county in North Carolina a farmers' business organization with every rural community affiliated as a unit of the county system, according to information sent here today by L. C. Salter, of the division of markets in the North Carolina Department of Agriculture.

"The problem of the farmers is not only the economical production of crops and livestock but also the economical buying of supplies, materials and equipment needed in production and the economical selling of crops and livestock once they are produced.

"It is the farmers' job to set up their cooperative marketing organizations. But there is needed leadership, training and education. And it appears now after considerable thought and study of the work that the organizations generally known as the mutual exchange is the need of Martin County.

"Mutual exchanges are incorporated organizations. Each member shares in the profits of the organization in proportion to the amount of business done through it by him. No individual can own more than 20 per cent of the stock. Each member has only one vote regardless of the number of shares he owns.

"The purposes of the organization are to market agricultural products; buy farm supplies and equipment; develop group marketing and group purchasing, and teach standardization and grading in connection with marketing activities.

"The operation of mutual marketing organizations in any event should be conducted upon sound business principles. Persons of responsibility and integrity should manage the organization. Purposes of the organization should be agreed upon by the membership and should be adhered to strictly.

"The chief functions of these exchanges is to market farm products for its members. As a rule there is not enough volume of each crop to justify commodity organizations. So the farmer is more interested in an organization that will handle all of his crops. Commodities should be handled by departments and dividends from each kept separate.

"In performing the function of marketing one of the best services is the assembling, grading and packing of produce for marketing. This service is invaluable and is performed by the organization more economically than by the individual.

"The chief advantage of these exchanges is the ability to provide markets for the many crops grown by the average farmer. Then, too, it is a local affair, and local members can settle their grievances much quicker and more satisfactorily than by a large overhead organization at a distance.

NEW FRIGIDAIRE MODELS SHOWN

Featured This Month By Dealers Throughout United States

The newest and latest household electric refrigerators built by Frigidaire Corporation are being featured this month throughout the United States by dealers of this organization, who are conducting their annual spring showing.

The Electric Supply Company, local dealer, is tying in with the national demonstration and is exhibiting as a part of his special May display a food thrift exhibit, which dramatizes in a most effective manner the large saving which Frigidaire users have been able to effect through the economies this electric refrigerator makes possible.

"A survey made some time ago among Frigidaire users showed that their average savings was \$9.96 a month," he said. "At the present price of foodstuffs, such a sum will buy a surprising amount of provisions. There is no doubt but that the cost of living has come down.

"At the same time the cost of a Frigidaire has been lowered considerably, too. Some time ago this company announced sweeping price reductions affecting its entire line of household models. One unit is now listed at the factory at \$130.

"Today, as a result, a Frigidaire, with all the known value it represents, can be had at the lowest price in the history of the company. And, best of all, this electric refrigerator will actually pay for itself out of the savings it makes possible."

TO HOLD SHORT COURSE IN JULY

Several Martin County Club Members Expect To Attend

Taking the dates formerly occupied by the State Farmers Convention, representative 4-H club girls and boys will gather at State College during the week of July 25 to 30 for their annual short course and federation meeting. Approximately 800 young folks are expected to attend, some from Martin County.

In sending out his announcement to county home and farm agents this week, state club leader L. R. Harrill says the college dormitories will be opened for the delegates on Monday, July 25, with the first meal being served at supper that evening. Club delegates and local leaders will be supplied rooms free of charge as in the past but must bring their bed clothing and necessary toilet articles. Each dormitory will be in charge of an experienced chaperon and adult leader.

Due to lack of dormitory rooms, only active club members who have done satisfactory work during the past year will be eligible to attend. The girls will be selected on the basis of one representative from each 25 members. However, a club with less than 25 members will be permitted to send a delegate.

Aside from the rather elaborate recreational program being planned, the girls and boys will spend some time instruction will be given in those lines in which the members are active in their club projects back home. This instruction will be somewhat advanced but will be designed to aid the young folks in their club activities. Particular emphasis will be placed on community work, recreation, and rural life.

The evening meetings on the campus will be the most interesting features. Mr. Harrill says it is the plan to have delegates from all parts of the State so that the club idea may be emphasized in every community.

"More of these exchanges are being formed every week. And each county should have one," concluded Mr. Salter.

QUESTIONS AND ANSWERS AS TO FARM PROBLEMS

No Type of Tobacco Found Immune From Disease; Other Queries

Q. Is there any type of tobacco that is immune to blue mold?

A. No. The disease was first discovered in Australia and exhaustive studies have been made for control, but no species has been reported that is immune or even resistant. The only remedy or control known to scientists is spraying with Bordeaux Mixture and this is recommended for all beds showing infection.

Q. Can dahlias be grown successfully in all sections of North Carolina?

A. Yes, but the climate of the mountains and upper piedmont is more favorable. The disadvantage in climate, however, can be largely offset by proper culture and mulching, careful watering, and the selection of varieties that are not easily burned by the hot sun or troubled with leaf hoppers.

Q. The milk from my cow is roppy after it sours. Can you tell me the trouble and give me a remedy?

A. A slimy or roppy condition in milk is brought about by the growth of bacteria and usually does not appear until 12 to 24 hours after the milk is drawn. The bacteria may come from the water in which the utensils were rinsed, from dust in the barn at milking time, or occasionally from an infected udder. Unless the infection comes from the udder, it can be eliminated by the practice of good sanitary measures which consist of milking in a place comparatively free from dust, cleaning the cow's rear flanks and udder with a damp cloth, and handling the milk in vessels that have been thoroughly washed and sterilized.

Expects Decreased Teacher Load in Schools Next Term

Raleigh.—LeRoy Martin, secretary of the state board of equalization, recently expressed belief the teacher load in the public schools of the State will be decreased next term.

There had been a wide-spread belief, Martin said, that the average number of pupils per teacher next year would have to be more than it was this year or more than 31.6 pupils per teacher.

The reverse, however, he said, will probably be true. There is every indication the number of pupils per teacher will be less.

Martin said an addition of 400 to 500 teachers for the next term by the board of equalization and a "normal attendance year" will bring this about. The past year was abnormal in attendance, he said, as the daily average attendance showed the unusually high increase of nearly 20,000 to 710,000.

Catawba Poultrymen Get Profit on Early Broilers

Catawba County poultrymen report a profit from early broilers this season with the price ranging from 20 to 25 cents a pound. About 3,000 broilers will be sold this week.

Leg Troubles

Varicose Veins Ulcers—Bunches

An amazingly simple home treatment gives quick, sure relief without enforced rest, operations, injections—nor failure. Simply rub the afflicted limb with a generous amount of Emerald Oil and bandage it comfortably tight. Use a bandage three inches wide and long enough to give the necessary support, winding upward from the ankle to the knee, the way the blood flows in the veins. Just follow directions, and you are sure to be helped. Clark's Drug Store, Inc. won't keep your money unless you are.

MOTHERS
 We Invite You To
Bring Your Baby
 (SIX YEARS OR YOUNGER)
Wed., Thurs., and Fri.
 MAY 25th, 26th, and 27th
 Between the Hours of 9 A. M. and 6 P. M.
 For Our
BABY PHOTO CONTEST
 RAIN OR SHINE
 Three gifts absolutely FREE will be awarded. A High-Grade Professional Baby Photographer will be with us on the above dates.
RULES OF THE CONTEST
 1—Every baby must be photographed at our store during the 3 days.
 2—Any baby six years or under will be photographed FREE when accompanied by a parent.

Harrison Bros. and Co.
 WILLIAMSTON, N. C.

Restless, could not sleep
"THERE were days when I felt like I could not get my work done. I would get so nervous and 'trembly' I would have to lie down. I was very restless, and could not sleep at night.
My mother advised me to take Cardui, and I certainly am glad she did. It is the first thing that seemed to give me any strength. I felt better after the first bottle. I kept it up and am now feeling fine."—Mrs. T. R. Othson, Fort Payne, Ala.

CARDUI HELPS WOMEN to HEALTH
 Take Theodore's Black-Draught for Constipation, Indigestion, and Biliousness.

"HERE'S A START FOR YOU . . . SON"

The youth who appreciates the value of insurance is bound to get on in this world. He knows that without it he is handicapped . . . without it he has to pass up many a good opportunity. Hence, we suggest you give the Boy Graduate an INSURANCE POLICY.

W. G. PEELE

5 Car Loads

Sulphate of Ammonia

WILL BE HERE THE LATTER PART OF THIS WEEK OR THE EARLY PART OF NEXT WEEK. SEE US BEFORE BUYING. WE CAN SAVE YOU MONEY AND AT THE SAME TIME GIVE YOU THE BEST AMMONIA ON THE MARKET.

LINDSLEY ICE COMPANY

Side Dress
 And let the weevil WORRY

LOOKS like a mighty bad weevil year. We had two bone-dry summers in 1930 and 1931 and are about due for a wet one now. Owing to mild weather, weevils had a picnic all winter and they are just waiting for the squares to form.

It is going to be a race between the cotton and the weevils. Cotton sure is going to have a job keeping ahead of the weevils without a little help from you. Not much, if any, fertilizer under it, the crop is almost sure to be slow and sickly by June. Just the way the weevils want it.

What they do to your crop depends largely on what you do for your crop!

Side-dress! Chilean Nitrate, 100 pounds per acre (200 pounds would be much better) will set the crop early, ahead of the weevil. Then you are reasonably safe. But be sure you get Chilean. Nothing takes its place for side-dressing cotton.

Your dealer has it or can get it on a moment's notice. See him now!
