I'll Tell You Free How to Heal

Bad Legs

Simply anoint the swollen veins and sores with Emerald Oil, and bandage your leg. Use a bandage three inches wide and long enough to give the necessary support, winding it upward from the ankle to the knee, the way the blood flows in the veins. No more broken veins. No more ulcers or open sores. No more crippling pain. Just follow directions and you are sure to be helped. Clark's Drug Store, Inc., won't keep your money unless you are.

PAINS QUIT COMING
 "When I was a girl, I suffered periodically with terrible pains in my back and sides. Often I would bend almost double with the intense pain. This would last for hours and I could get no relief.
 "I tried almost everything that was recommended to me, but found nothing that would help until I began taking Cardul. My mother thought it would be good for me, so she got a bottle of Cardul and started me taking it. I soon improved. The bad spells quit coming. I was soon in normal health."

Side Dress
Get ahead—stay ahead of the weevil
THAT is the whole story this year. Either you get ahead of the weevil or he will get ahead of you. Fields are full of weevils this year, according to reports. If they find squares, there won't be much cotton at picking time.
 Cotton squares are the weevils' favorite food! Therefore don't give them any squares to eat in your field. Set your crop before they are ready. A side-dressing of 100 pounds per acre (200 pounds would be much better) of Chilean Nitrate will do it. There is nothing like Chilean to pick up a crop of cotton and hurry it right past the weevil.
 What else can you do that is so easy, so cheap, so safe and so sure?
 Side-dress—100 pounds Chilean Nitrate per acre—right after chopping.
 See your dealer now and impress on him you want Chilean "Natural" Nitrate. He is anxious to get you just what you want.

it takes everything

"Aim Is Only 10% of Billiards"
 "True aim is only the starting point of a billiard champion," says the wizard of 18.2 ballline. "Eye—to guide that aim; nerves—to keep it steady under stress; touch and timing—to control it; endurance—to combat fatigue; and above all, a chess brain—to see ahead and plan accordingly; all these are equally essential. To get your name in the record-book, you've got to have everything!"
 Jake Schaefer

TAKE a cue from Jake Schaefer, Jr. Real gasoline must have everything, too. To be gum free is not enough. To be free from sulphur is not enough. To be low priced is not enough.
 If it causes excessive carbon deposits you are likely to pay for it twice. Once at the pump and again for needless carbon jobs in the repair shop.
 1932 gasoline must have everything.
 "Standard" 1932 gasoline has everything.

It gives quick starting for traffic jams. Smooth and silent power when you need it. Added miles of low-cost, trouble-free transportation. Keeps your car out of repair shop. Saves you money.
 Read the list below. Check it. It spells savings. A sweet engine. Next time you buy gasoline buy "Standard."
