## FAT MAN REDUCES 53 POUNDS—OH BOY!

Don't be stubborn, you big fat men—throw off your fat before your fat throws you into the discard. Do as Mr. S. A. Lanier, of Sawtelle, Calif., did—read his letter:

"I have used two reducing belts to no benefit but since using Kruschen Salts each morning in my coffee I have taken off 7 lbs. in a week and eat most anything I like. I weighed 243 lbs. 6 months ago and now I weigh 190 lbs."

Take one-half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats, potatoes, and sweets—now you know the safe way to lose unsightly fat.

For a trifling sum you can get a jar of Kruschen Salts that lasts 4 weeks at Clark's Drug Store, Inc., or any drug store in the world—but be sure and get Kruschen—your health comes first.

## DISTRESS AFTER MEALS Relieved By Black-Draught

"I had sour stomach and gas," writes Mr. Jess Higgins, of Dawsonville, Ga., "and often I would have bilious spells. I read about Theodor's Black-Draught and began to take it. It relieved me of this trouble. I keep it all the time now. I consider it a fine medicine. I take a pinch of Black-Draught after meals when I need it. It helps to prevent sick headaches and to keep the system in good order."

Get a package at the store. Try it! Now you can get Black-Draught in the form of a SYRUP, for Children.

# in 1932 Hydrofined Oil Replaces "STANDARD" MOTOR OIL

Essolube, the only hydrofined oil, is now available to every motorist at the price of ordinary motor oils.

This oil is a result of the great hydrogenation discovery. Hydrogenation of atmospheric nitrogen was the chemical secret that enabled Germany to produce unlimited quantities of explosives and thus to "carry on" years after the experts considered her continued struggle impossible.

Hydrofining, developed by the Standard Oil scientists, is an advanced process which makes the hydrogenation of motor oil commercially possible.

Hydrofining gives Essolube all the five essential qualities for complete lubrication.

The finest Paraffinic oils have three of these essential qualities. Naphthenic (Asphaltic) oils have two of them. Essolube, by hydrofining, combines all five qualities. There has been no commercial method before hydrofining that combined the good qualities of these two types of oil.

It is so superior to all other oils that we are not only proud to name it after its companion product in quality, Esso,

"more powerful than any gasoline," but we have replaced the widely known "Standard" Motor Oil with this new product.

Hydrofined Essolube sells at no extra cost.

It is on sale at all stations and dealers of the following companies: Standard Oil Company of New Jersey, Standard Oil Company of Pennsylvania, Standard Oil Company of Louisiana, Standard Oil Company, Incorporated in Kentucky, Colonial Beacon Oil Company, Inc.
