

### NEW MOTOR FUEL ON SALE TODAY

#### Standard Introduces Gas Guaranteeing Smoother Performance

The introduction of the new motor fuel Essolene to the public at Esso stations on June 2 is one of the major steps in a new marketing program which is involving the expenditure of several million dollars and giving employment to many workers, according to R. H. Harris, local manager of the business of the Standard Oil Company, of New Jersey.

Concerning Essolene, Mr. Harris says, "I naturally am enthusiastic about all of our products, but in Essolene I am positive we have a highly unusual motor fuel. The tests indicate that it is the best regular-priced fuel on the market. The anti-knock quality is higher than in any regular gasoline and, among other things, Essolene actually reduces gummy deposits in an old engine. We've given the slogan, 'Guarantees Smoother Performance' to Essolene, and we're sure motorists will find that's so."

A red and white color scheme will distinguish the Esso stations. All the pumps are being repainted to conform to this plan, and new signs are being erected. All of this work gives employment to many men, and, in the opinion of Mr. Harris, is an indication of his company's attitude toward the future.

### HE SAVED HIS FRIED CHICKEN

#### Wayne County Farmer Cuts Open Snake To Recover Setting of Eggs

Goldsboro.—Here's a free tip for poultry raisers.

Tom McCullin, of the Mineral Springs section of Grantham Township was plowing some distance from his house when he heard his wife shriek as if she were being murdered.

As fast as his legs could carry him he rushed to the barn from which came the shrieks.

Trouble was, he found, a chicken snake had chased a setting hen off the nest and swallowed the setting of eggs.

His speed slowed by the nest of eggs the snake was dragging slowly away, his long length bulged every few inches with an egg.

"Now we lose all that fried chicken," wailed Mrs. McCullin, wringing her hands.

"That we don't," said Mr. McCullin.

With one blow from a stick he smashed in the head of the snake. Quickly he took his sharp pocket knife, ripped open the snake, removed the eggs before they were cold and returned them to the distressed hen.

A nice brood of young chicks hatched out at the McCullin house this week, the same eggs that for some minutes reposed in the alimentary tract of the snake.

### SCHOOL DAYS

By DWIG

Stat.—The last 1,000 miles in the average tire is worth only 39 cents, based on today's prices and mileages. New Firestone tires have extra values at no extra cost, and they will improve the appearance and handling of your car, give added safety, and cost you less in the long run.

### MAN! WHAT TIRE VALUES GOODYEAR OFFERS!

WHEN you buy a Goodyear you get KNOWN VALUE. Today this value is the biggest ever.

This new Pathfinder has FULL CENTER TRACTION, for complete non-skid safety. And 20 per cent thicker tread, for bigger mileage. And a still stouter long-life body of Supertwist Cord.

Yet look at the prices for this improved quality tire within the reach of all. And think of buying an All-Weather Goodyear, the world's acknowledged top-quality tire, for no more money than an offbrand, "nobody's tire" might cost!

#### PLAY SAFE

Every car owner who is running around on thin, worn-out, dangerous tires, should replace them with safe new ones NOW. Old tires on hot roads are a risky proposition.

### OFFER PRIZES TO CLUB GIRLS

#### Style Dress Contest Being Conducted by National Organization

Four-H girls of this county are now eligible to compete in the national 4-H club girls style dress revue contest for the valuable training and many fine prizes offered, according to word from the National Committee on Boys and Girls Club Work of Chicago, which is conducting the contest in cooperation with the state and county club leaders.

The county champion in this contest will be awarded a gold-filled medal of honor. A finely engraved certificate of merit will be awarded the second winning girl. The county champion is then eligible to enter the state contest in the fall to compete for state championship. The winner in this contest will receive a prize trip to the national contest, which is a feature of the Twelfth National Club Congress to be held in connection with the International Livestock Exposition, December 1-9, in Chicago.

In this final contest state champions will be required to model a garment of their own making in one of four classes. They are the cotton school costume, tailored costume, afternoon costume and informal party costume. The national champion and runner-up will each receive a prize educational tour with chaperon to shrines of American history in the summer of 1934, with all expenses

### 3 SCHOLARSHIPS OFFERED FREE

#### All Members of 4-H Clubs in North Carolina Are Eligible

North Carolina 4-H Club members have the opportunity of competing for three college scholarships in agriculture valued at \$300, \$200, and \$100 by making good records in corn club work this season.

"We have received an announcement from the Nelson Knitting Company, of Rockford, Ill., saying they will donate three scholarships in agriculture for the best achievements in growing corn on one acre of land this season under the rules governing 4-H club work," says L. R. Harrill, club leader at State College. "In addition to these three scholarships, the company is also offering two gold 21-jewel watches valued at \$115 each to the club member who makes the highest yield of corn on one acre of land and to the club member who grows a good yield at the lowest net cost per acre. In addition a gold medal in gift box is offered to county winners."

Harrill says a club member may qualify for this competition by being duly enrolled in 4-H club work and by growing his corn under the supervision of the agricultural extension service. A complete record must be kept on the project showing all costs, the yield, and other such factors.

While this is a national contest, it is open to any 4-H club member in North Carolina and those planning to enter should get in touch with their county farm agents immediately, Harrill urges. He is of the opinion that high yields of corn may be made under North Carolina conditions and there is no sound reason why some of these scholarships should not come to this State.

### Calcium Arsenate for Potato Beetle Control

The same calcium arsenate used for dusting cotton to control the boll weevil may be used for dusting irish potatoes to control the Colorado potato beetle.

### Wind Saturday Does Damage in Cross Roads

A strong wind having almost as much force as a tornado did considerable damage to property on the Kenneth Roebuck farm in Cross Roads Township last Saturday. The wind blew down Mr. Roebuck's packhouse and a tobacco barn and uprooted a number of trees. The wind storm was limited in scope, neighbors reporting very little or no damage as a result of it. Very little rain accompanied the wind, it was said.

A fine solid gold medal of honor is also awarded the national champion. The third and fourth winners will each receive a gold wrist watch valued at \$75.

### Spring Car Care Aids for Safety And Efficiency

This year spring car care has two important aspects—the usual steps for increased efficiency, and elimination of the unsafe factors that caused an increased number of accidents last year, according to N. C. Green, the local Firestone dealer. He gives here suggestions from his experience with thousands of motorists. He takes up the matter of safe tires first, advising that tire prices are bound to go up and now is the time to save money.

"It will come as news to many motorists that an old or worn tire is less safe now than at the height of winter; from now on tires will run hotter, and heat is their greatest enemy," he said. "Blowouts will be more common."

The axiom that any car is only as safe as its tires is one that motorists should keep in mind, Mr. Green asserts. Unlike brakes and headlights, there are no legal specifications as to what is a safe tire. There is, however, a common-sense definition—a tire with the non-skid tread worn off or a tire worn down to the fabric is unsafe.

"Such tires should be replaced for safety of yourself and other motorists if for no other reason," he said. "But actually it will cost you less money to replace worn tires than wait until they are punctured or go
