

### EVENTS MOVED RAPIDLY IN PAST THREE MONTHS

#### New Administration Has Made Wonderful Record So Far

It is rather difficult to realize that the new administration came into power less than three months ago. So rapidly have events moved, and so definite and manifold have been legislative proposals designed to start and speed recovery that the Roosevelt policies seem to have dominated the country longer than they really have. A survey of what has been accomplished is interesting. It reveals:

**Taxation:** The economy act gave the president powers to reduce governmental costs. Steps taken have saved \$400,000,000 a year in compensation and pension payments, and \$100,000,000 in Federal salaries. Department reorganizations to save an additional \$600,000,000.

**Prohibition:** Beer has been legalized. The President also recently issued a declaration in favor of the unconditional repeal movement.

**Agriculture:** The new farm bill, recently passed, embraces: Provisions for reduction of acreage, taxes on wheat, corn, cotton, hogs, and other basic farm products to bring prices to a parity with the general price level, and control of marketing through licenses and supervised agreements among producers, processors, and distributors. Pending now is a proposal for refinancing of farm mortgages.

**Tariff:** The President, through the Washington conferences, has achieved a tariff truce among the major nations to last until the world economic conference has been completed, and is expected to use the power of the United States to create agreements for stimulating world trade.

**Unemployment:** A Civilian Conservation Corps has been created to provide work for 250,000 men in the national forests. A draft for a national public works program on a gigantic scale has been prepared. Moves are on foot to create a new relationship between government and business, to lift anti-trust law provisions to permit industrial expansion and eliminate needless waste that comes from cut-throat competition.

**National defense:** Cuts in army and appropriations will total approximately \$146,000,000. Final decision on military expenditures will depend on agreements made with other powers.

**Banking:** Following the national bank holiday, the President took the United States off the gold standard by forbidding shipment of gold abroad, refusing to pay United States obligations in gold, and by making the hoarding of gold or gold certificates a major felony. Plans are now on foot for legislation to guarantee payment of deposits in solvent banks.

**Foreign Policy:** The United States will stand firmly for international peace; will refuse to recognize territory taken by aggression; will pursue a policy of "the good neighbor" in international relations.

**Currency:** The inflation rider to the farm bill permits the president to issue new money as he believes it is needed, lower gold content of dollar, and so on. It is affirmed that Mr. Roosevelt will not use this unprecedented power unless, in his opinion, no other avenues are left.

It is obvious that the success of any administration depends on the support of Congress and the friendliness of the general public. So far, Mr. Roosevelt has had both, indeed. Recently the first signs of organized opposition appeared. As yet this opposition has been powerless in combating the White House influence, and the President is easily assured of desired support.

### SCORES MADE IN HEALTH CONTEST

#### Pitt County Girl Is Winner With Score of 100; Martin Entry Fourth

The original scores of the girls entering the district contest were as follows: Mildred Taylor, from Pitt County, champion, score 100; Ida Elizabeth Johnson, Johnston County, 99; Margaret Asbell, Chowan County, 98; Mary E. Case, Beaufort, 97.9; Doris Thomas, Martin, 97.75; Beatrice Leonard, Nash, 97; Isabelle Gallis, Hertford, 96.5; Irma Coppersmith, Pasquotank, 96.5; Elizabeth Haire, Washington, 96.4; Minnie V. Stallings, Edgecombe, 93.

The State winner in the health contest last year received a score of 95.75. The above girls were examined by Z. L. Edwards, dentist, in Washington; H. W. Carter, M. D., eye, ear, throat, and nose specialist; and Dr. D. E. Ford, of Washington. The three highest scoring girls were also examined by Dr. DeWitt Klutz, Dr. Josh Tayloe, and Dr. Dave Taylor. The physicians reported this group of girls to surpass any ever examined in a district health contest. It is to be hoped that the losers will try even harder to bring their scores up another year.

### 3 COUNTY GIRLS FINISH AT E.C.T.C.

#### Two From Robersonville, One From Hassell, Get Diplomas Last Week

Three Martin County young girls, Misses Beatrice Stalls, of Robersonville; Delha Ross, of Robersonville, and Thelma Edmondson, of Hassell, were graduated from the East Carolina Teacher's College in Greenville last week. Two of the young ladies, Misses Stalls and Ross, were graduated from the Robersonville school. Miss Edmondson was graduated from the Bethel school.

While Martin County had a very small number to graduate as compared with Pitt's 25 and those from other counties, it has many students in the school who will be receiving diplomas at the institution ere long.

Seventy-seven students, 75 women and 2 men, received bachelor of arts degrees at the institution this week, when Dr. Will Durant, the noted philosopher, made the final address.

### Farm Program Must Include Growing Timber

Timber is an essential part of the equipment of every farm and any rational farm program must include the growing of timber for home use with a surplus for sale.

Foreign Policy: The United States will stand firmly for international peace; will refuse to recognize territory taken by aggression; will pursue a policy of "the good neighbor" in international relations.

Currency: The inflation rider to the farm bill permits the president to issue new money as he believes it is needed, lower gold content of dollar, and so on. It is affirmed that Mr. Roosevelt will not use this unprecedented power unless, in his opinion, no other avenues are left.

It is obvious that the success of any administration depends on the support of Congress and the friendliness of the general public. So far, Mr. Roosevelt has had both, indeed. Recently the first signs of organized opposition appeared. As yet this opposition has been powerless in combating the White House influence, and the President is easily assured of desired support.

## ODD -- BUT TRUE

### FARMERS READY PLOW UP COTTON

#### Cotton Administrator Says Planters Willing To Cooperate

Washington.—Following the return here of C. A. Cobb, cotton administrator, who has been making a survey of conditions in the south, the department of agriculture recently announced that a preliminary cotton conference would be held. Those invited represented all the groups directly concerned, such as the manufacturers, growers, buyers, and exporters. The conference dealt with such questions as acreage reduction, the processing tax, as provided in the allotment bill, and kindred subjects, and while general policies were given consideration, this was not the conference contemplated under the new farm relief act, which would be expected to make final decisions.

While in the South Mr. Cobb conferred with a number of the state managers of the farm extension service, and was given the information that the planters in many sections have expressed a willingness to "go along" with any plans looking to a reduction of acreage this year, even if this should call for the plowing up of a good deal of cotton, and the planting of feed and soil building crops.

Putting a plan of this kind into execution would cost the government, or cotton mill owners, by way of the processing tax, \$100,000,000 or more, if, as Secretary Wallace has suggested, 10,000,000 acres should be taken out of cultivation, the production control necessary to remove the surplus problem. Of course, the department is not entirely penniless, it can boast the possession of \$100,000,000 under the new law, and then it would probably be possible for Secretary Wallace to secure a loan from the Secretary of the Treasury, provided he and the director of the budget bureau can see a satisfactory amount of tax money in prospect.

It would be possible to finance a land-leasing program without invoking the allotment plan at this time, but a group of Southern senators are still urging the adoption of an amendment to the national recovery act, designed to divert \$200,000,000 to farm relief, an amount that would enable the department to do some land leasing in the wheat and corn states, as well as in the South.

Japanese constitute 43 percent of the population of the Hawaiian Islands.

### Green Feed or Cod Liver Oil Is Needed by Pulletts

If there is an abundant supply of succulent green feed during the summer and the ration is properly balanced, cod liver oil may be left out of the ration for growing pullets. During the dry months, however, the grass or green feed becomes fibrous and unpalatable and the oil should be fed. A four per cent alfalfa leaf meal will also aid in making up this deficiency in the green feed.

### At Least Five Vegetables Needed in Fall Gardens

There are five vegetables that should be grown in every fall garden. These are snap beans, turnips, collards, cowpeas, and Irish potatoes. Other desirable ones are cabbage, beets, kale, tomatoes, sweet corn, and lettuce. A complete list of these fall vegetables, together with planting dates is given in Extension Folder 31 and copies of this folder will be mailed free upon application to the Agricultural Editor, State College Station, Raleigh, N. C.

### Grain Mixture Needed To Supplement Grass Ration

The average-sized cow can consume only enough grass to maintain her body and to produce about two gallons of milk a day. Additional production demands a supplement in the form of a grain mixture containing from 13 to 16 per cent digestible protein and this should be fed at the rate of one pound of mixture to each 5 to 7 pounds of total milk production each day.

**NOTICE OF SALE**  
Under and by virtue of the power in me vested in that certain deed of trust made to me as trustee on the 1st day of June, 1925, by B. B. Sherrod and wife, Pattie Sherrod, which deed of trust is duly recorded in the Martin County records in book S-2, at page 83, I will, on Tuesday, the 27th day of June, 1933, at 12 o'clock noon, at the courthouse door in Martin County, Williamston, N. C., sell at public auction, for cash, to the highest bidder, the following land, to wit: One certain tract or parcel of land,

situated in Hamilton Township, town of Hamilton, where we now live, and more fully described, as follows:  
Bounded on the south, east and west by the public streets of Hamilton, and on the north by the lands of P. P. Peel, same being all the lands we own in the Town of Hamilton.  
This the 24th day of May, 1933.  
T. B. SLADE, Jr., Trustee.

**NOTICE OF SALE**  
Under and by virtue of the authority conferred upon me in a deed of trust executed by Tommie Roberson on the 19th day of March, 1928, and recorded in book P-2, page 309, I

will, on Tuesday, the 27th day of June, 1933, at 12 o'clock noon, at the courthouse door in Martin County, Williamston, N. C., sell at public auction for cash to the highest bidder, the following land, to wit:  
All my right, title, and interest in and to the lands known as the Wiloughby Roberson homestead and farm, said interest purporting to be one-seventh (1-7) undivided, and being the same premises on which Mrs. J. R. Perry now lives, adjoining the land of H. C. Harrington, Justus Everett Estate, and others, containing 190 acres, more or less.  
This the 24th day of May, 1933.  
T. B. SLADE, Jr., Trustee.
