In Washington Last Week
Mr. and Mrs. Charlie James spent last week-end in Washington City with friends.

Visitor Here Thursday
C. S. Coats, former prohibition agent in this section, but now of Smithfield, was a business visitor here yesterday.

From Tarboro
Mr. and Mrs. Joel Muse and little daughter, of Tarboro, visited Mr. and Mrs. Elbert S. Peel here yesterday and today.

Here Yesterday
Mrs. W. C. Liverman and daughter, Miss Josephine Sykes, of Rocky Mount, visited friends here for a short while yesterday.

Spends Week-End Here
Mr. William Grissom, of Henderson, spent the week-end here with his sister, Mrs. W. D. Mishoe, and Mr. Mishoe.

Visits Her Daughter Here
Mrs. Z. P. VanDyke, of Greenville, visited her daughter, Mrs. G. G. Woolard, and Mr. Woolard here on Wednesday night.

In Washington Hospital
Davis Harrison was in the Washington hospital yesterday for an examination.

From Suffolk, Va.
Mrs. Lawrence Peel, of Suffolk, Va., is here this week visiting relatives and friends.

Bill Peel Sick This Week
Mr. W. G. Peel has been ill this week at his home on Simmons Avenue.

Visitors Here Yesterday
Mesdames J. L. Williams and W. H. Woolard, of Greenville, visited Mrs. G. H. Harrison here yesterday.

In Town Thursday
Mr. William Harrison, of Williamston Route 2, was in town yesterday shopping.

Visitor Here Today
Mrs. S. S. Lawrence, of Wilson, is visiting relatives here today.

In Elizabeth City
Messrs. Frank Carstarphen and Eddie Simpkins were in Elizabeth City Thursday night.

Here Thursday
Messrs. James L. and C. C. Coltrain, of Farm Life section, were business visitors in town yesterday.

Here From Woodard
Miss Fae Tadlock, of Woodard, is visiting Edith Peel.

Attend Meeting Here Tuesday
Messrs. Elmer R. Edmondson and John W. Eubanks, of Hassell; and John W. Hines and Mr. Barrett, of Oak City, attended a meeting of Skewarke Lodge Tuesday night.

From Macedonia
Mr. W. A. Perry, of Macedonia neighborhood, was a visitor in town Thursday.

From Jamesville
Mrs. George Martin, of Jamesville was a visitor here yesterday.

Returns From Norfolk
Mr. Ray Goodmon returned home today from a business trip to Norfolk.

Here From Windsor
Mr. and Mrs. G. C. Spoolman, of Windsor, visited friends here yesterday afternoon.

Returns From Tennessee
Mr. Toy Goodmon returned this week from a visit in Johnson City, Tenn.

THOSE BREAKING CONTRACTS HAVE BAD TIME AHEAD

However, Only Few Cotton Signers Fail to Live Up To Agreement

A few cotton growers signing contracts to reduce their acreage during the past reduction campaign have failed to fulfill their contracts and have not destroyed the cotton on the acreage offered.

In the meantime the wheels of the Government grind slowly, but generally grind exceedingly fine.

The United States Department of Agriculture, through its Agricultural

may be sold to neighbors or commercial seedmen at fair to good prices. A supply of legume seed next spring may bring in some cash instead of making it necessary to buy.

Mr. Kime specifically advises saving all cowpea, soybean, and lespedeza seed this fall.

Cowpeas are coming back into popularity and need no expensive machinery for harvesting. They may be eaten, planted, or sold.

Soybean seed will be in demand next season. There is always a good demand for Ootootan, Laredo, Virginia, Herman, and Biloxi seed for planting and prices should be better next spring than in the past two years. Then, too, Kime points out that soybean oil mills have been established at Norfolk and will need several hundred thousand bushels of the yellow seed varieties of soybeans.

Lespedeza seed will also be in demand and may be harvested easily with a seed pan. If such a pan is not available, the crop may be allowed to mature but not ripe enough to shatter the seed, and then stored on a tight floor, where the seed may be beaten out after the hay is thoroughly dry.

Optometrist
Next Visits:
Bethel, N. C., at Rives Drug Store, Monday, September 18.
Robersonville, N. C., at City Grill Tuesday, September 19.
Williamston, N. C., at Peele's Jewelry Store, Wednesday, September 20.
Plymouth, N. C., at Liverman's Drug Store, Thursday, September 21.
Eyes Examined - Glasses Fitted - At Tarboro Every Friday and Saturday

Adjustment Administration is carrying out the wishes of the Government that something definite be done to improve the agricultural situation of the nation. To do this crop surpluses must be removed, and those farmers who cooperate voluntarily must follow through in the contracts they make with the government, otherwise the whole system fails.

The Department of Agriculture has been extremely lenient with farmers who have borrowed money under the Seed Loan Act and other plans and for that reason some growers have felt that they need not fulfill the terms of their cotton contracts if they so desire.

However, the legal department of the Agricultural Adjustment Administration advised directors of extension from the cotton-growing states that plans are now being completed to the end that every person who signed a contract to reduce his acreage does so. After the local committee has notified a recalcitrant grower to destroy his cotton and he still does not do so, deputy United States marshals will be put in charge of the matter and finally indictments will be drawn and the matter tried in the Federal courts.

In the end the man who failed to fulfill his contract will probably lose much more than he thinks he will lose by plowing up his cotton. Of course, mistakes and misunderstandings will be arbitrated, but absolute refusal will be handled through the legal channels of the Government.

NOTICE OF SALE
Under and by virtue of the power of sale contained in a certain deed of trust executed by Augustus Ayers and wife, Willie Ayers, to the undersigned trustee on the 15th day of December, 1919, and of record in the public registry of Martin County in book U-1, at page 217, said deed of trust

DIZZINESS
relieved by Black-Draught
"I decided to take Theford's Black-Draught, as I had been having bilious spells," writes Mr. Chas. E. Stevens, of Columbus, Ind. "When I got bilious I feel sleepy and tired and do not feel like doing my work. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling. Now you can get Black-Draught in the form of a SYRUP, for CHILDREN."

having been given for the purpose of securing certain notes of even date and tenor therewith, and default having been made in the payment of said notes, and the terms and stipulations contained in the said deed of trust not having been complied with, and at the request of the owner of said notes the undersigned trustee will, on Saturday, the 16th day of September, 1933, at 12 o'clock noon at the courthouse door in the town of Williamston, offer for sale to the highest bidder, for cash, the following described real estate, to wit:

Bounded on the north and west by the lands of Augustus Ayers; on the south by John Crawford, and on the east by Tranter's Creek, being the same lands this day conveyed to said Ayers by J. L. Carson and wife, containing 50 acres, more or less.

This the 16th day of August, 1933.
B. A. CRITCHER, Trustee.

Elbert S. Peel, Attorney.

The "plow up" campaign cut down several million bales of surplus cotton.

The National Recovery Administration is working wonders in bringing about better business conditions, and this will increase consumption of cotton.

Details will soon be announced by the Secretary of Agriculture on plans to reduce our 1934 cotton acreage to 25,000,000 acres, and this should help to give higher price levels.

Seed loan borrowers profited by storing their cotton last season on the 9-1-2c plan.

Seed loan borrowers can store their cotton for this season by putting up enough cotton at market price to cover loans and six months' storage and expenses. They can keep their seed for picking expenses and draw on us for 50c per hundred (\$2.50 per bale) if needed.

We netted our members 8c per pound for seasonal pool cotton last season, a far better price than outside average.

Low storage rates, low interest rates, selling direct to mill, paying premiums for better grades and staples—these are the secrets of our success.

We are advancing 7c per pound on seasonal pool cotton and 6-1-2c on optional pool cotton on day of delivery. Every cotton producer should cooperate and help in this plan for better prices.

See our nearest field representative, receiving agent, or warehouseman, or write us for additional information.

70,000 CARS USED BY CHEVROLET
How One Transportation System Supplements Another
Detroit—How one transportation system supplements another was revealed today in the statement by the Chevrolet Motor Company that in the first six months of this year the company moved by railway freight 69,596 full carloads of incoming materials and outgoing finished parts and automobiles.
This represents an increase of 38 per cent over the full carload movement in the same period last year, according to C. R. Scharff, Chevrolet Traffic Director, and does not include 72,000,000 pounds of railway freight carried in less than carload lots, an additional 2,100,000 pounds moved by railway express and 24,000,000 pounds by freight forwarders.
Millions of dollars have already been paid to the railroads this year by Chevrolet for the traffic haulage essential in the movement of parts and raw materials to the company's 20 domestic plants, and the outbound carriage of parts and finished automobile to dealers and zone warehouses, Mr. Scharff pointed out.
The long-sustained buying market for automobiles this year is reflected in the Chevrolet freight movement in June, the last month for which figures are available. In this month alone the company handled 16,409 full carloads of freight, or more than three times as much as in June, 1932.
Mr. Scharff stated that 65.3 per cent of freight handled by Chevrolet in June was moved by rail. The remainder was divided between motor trucks, drive-aways, and water transportation.

LEGUME SEED TO BRING HIGHER PRICE IN SPRING

Farmers Urged To Save All Seed Possible at Home This Fall

A continued advance in prices of all legume seed and the outlook for still higher prices next spring demands that growers save all seed possible at home this fall.

"I am convinced that farmers should save their own planting seed this fall," says P. H. Kime, agronomist of the North Carolina Experiment Station. "Occasionally seed of certain crops may be bought more cheaply than they may be saved at home, but this is an exception. Usually, most farm crop seeds may be harvested with whatever equipment there is available on the home farm and any surplus of seed above that needed for planting

PROGRAM FOR WEEK BEGINNING MONDAY, SEPTEMBER 18
Turnage Theatre - Washington, N. C.
Monday and Tuesday September 18 and 19
"SHE DONE HIM WRONG" with MAE WEST
Wednesday "OUT ALL NIGHT" with ZASU PITTS and SLIM SUMMERVILLE
