PHILLIPS' VERI-BEST FERTILIZER

ALL CROPS

Tobacco is one crop that the quality is largely controlled by the source of plant food and the analysis of the fertilizer used. PHILLIPS' VERI-BEST tobacco fertilizer is manufactured from the best sources of nitrogen, like nitrate of soda, cottonseed meal, blood, etc. The available phosphoric acid is derived from superphosphate manufactured from clear sulphuric acid. The potash is largely derived from sulphate of potash magnesia, which contains sufficient magnesium to control sand down, and which is very low in chlorine. All PHILLIPS' VERIBEST brands of fertilizer contain a lime filler which furnishes necessary calcium. Use PHILLIPS' VERI-BEST EUREKA for your tobacco, it analyzes 3-8-6 and is put up in cotton bags.
