"Big Stick" Is Needed

That "brain trust" propaganda is about to break down on the money trust. They find that the Roosevelt "brain trust" is succeeding so well that the voters refuse to longer hear their clap-trap money-trust propaganda and are well pleased with Mr. Roosevelt's fair-play, honest-dealing policies, even if the money trust tried to belittle it by calling it a "brain trust."

There is just one thing Mr. Roosevelt lacks, and that is a "big stick" to paralyze the price-depressing money trust. We hope to see him get to that eventually.

The Slot Machines Are Slipping

The State. Several cities of North Carolina—Charlotte among them—have definitely decreed that the slot machine must go.

Church organizations in Raleigh last Sunday adopted resolutions urging that the people of that city cooperate in banning this gambling evil from stores and other places where they have been doing a flourishing business for several years.

Newspapers in all sections of the state continue to express themselves vigorously on the subject and are urging that immediate action be taken relative to banishing the machines from public places.

It is a campaign which has the support of the press and the people everywhere. It is a campaign that is worth while, because there is no question but that the slot-machine evil is one which is doing an immense amount of harm. Not only are the machines deliberately robbing the people of thousands of dollars every month, but the habit of gambling is being instilled into boys and girls who are being converted into profitable customers of the gambling contrivances.

A considerable agitation has been stirred up over the matter. It is up to the people to decide whether it is going to end in a lot of talk or whether the example of Charlotte and other cities and towns shall be followed.

Civic clubs and other organizations can do much to help bring about some sort of action in their separate communities. They should take advantage of the progress which the campaign has made thus far and help oust the machines at as early a date as possible.

Holding the War-Debt Bag

Philadelphia Inquirer. Debt payment day has come and gone. The United States should have received from debtor nations \$447,843,644 on June 15. What it did collect was \$166,539. Little Finland alone kept faith. Something more might have come in had it not been for the mischievous bill of Senator Johnson. Italy, for instance, was prepared to tender a "token" payment.

So we have reached an impasse. With all our debtors save Finland occupying the same boat and flying the flag of defalcation, why worry? Let the creditor do the worrying. This seems to be the prevailing sentiment among them. Thus we find Great Britain assuming the position that the next step must be taken, not by her, the debtor, but by the United States, the creditor. That is wretched logic as well as decidedly poor sportsmanship, but such is the situation.

"CHEVROLET IS RIGHT!"

After driving the New Chevrolet five miles, I'd never buy any other low-priced car!!

DEALER ADVERTISEMENT

CHEVROLET In the low-price motor car field there's nothing that even compares with Chevrolet's famous 5-mile ride. The reason is: No other car at Chevrolet's price has any of the vital features pictured below. And without these features, it's impossible to equal Chevrolet's ride! You can't get Knee-Action results with anything less than a genuine Knee-Action car. You can't get six-cylinder economy with more than six—nor can you get valve-in-head performance with anything inferior to valve-in-head design. And the same thing applies to the Fisher body, the brakes, the steering. Chevrolet offers one feature after another that makes a tremendous difference—in the way the car feels, performs and saves. One feature after another that puts Chevrolet far ahead in value... farther ahead every day in sales! CHEVROLET MOTOR CO., DETROIT, MICHIGAN

"Why boast or brag?" the owl inquires; "A self-made claim no faith inspires—But make a test and facts you glean; Then by these facts judge Essolene!"

It has never been our policy to make mileage predictions for Essolene any more than it has to make other performance claims. That's why we ask you to try Essolene and then pass judgment upon it... to base your opinion, not on our promises, but on facts... as you yourself establish them through practical tests in your own car. A tankful is all you need to convince you. We depend on Essolene to speak for itself.
